

Los Angeles Regional Water Quality Control Board

July 12, 2017

Ms. Katherine Rubin
City of Los Angeles, Department of Water and Power
111 North Hope Street, Room 1213
Los Angeles, CA 90012

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS— CITY OF LOS ANGELES, DEPARTMENT OF WATER AND POWER, LOS ANGELES AQUEDUCT FILTRATION PLANT AND LOS ANGELES RESERVOIR OUTLET UV TREATMENT FACILITY, 13101 SEPULVEDA BOULEVARD, SYLMAR, CALIFORNIA (NPDES NO. CAG994004, CI—9738)

Dear Ms. Rubin:

In our letter dated June 25, 2014, we informed you that the subject discharge is regulated under Order No. R4-2013-0095, *General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for Groundwater Discharges from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 6, 2013.

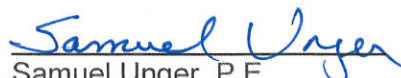

We have reviewed your March 3, 2017, letter which requested termination of your coverage under the General NPDES Permit. The discharge at the facility has stopped and the permit is no longer needed.

On July 6, 2017, Board staff inspected the project site and verified that there is no discharge of groundwater from the project site to the storm drain. Since there is no discharge of groundwater from the project site, coverage under Board Order No. R4-2013-0095, General NPDES Permit No. CAG994004, CI-9738 for the facility is hereby terminated except for enforcement purposes.

Please note that if future discharges of groundwater to surface water or land becomes necessary, you must file a Report of Waste Discharge with this office and obtain appropriate Waste Discharge Requirements (WDRs) prior to discharging any groundwater from the site to surface waters or land.

If you have any questions, please contact Vilma Correa at (213) 576-6794.

Sincerely,

Samuel Unger, P.E.
Executive Officer
