**TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS—ALAMEDA CORRIDOR EAST CONSTRUCTION AUTHORITY, NOGALES STREET GRADE SEPARATION PROJECT, NOGALES STREET AND RAILROAD STREET, ROWLAND HEIGHTS, CALIFORNIA (NPDES NO. CAG994004, CI-9969)**

Dear Mr. Aukarman:

The subject discharge is regulated under Order No. Order No. R4-2013-0095, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 6, 2013.

We have reviewed your July 26, 2016, letter which requested termination of your coverage under the General NPDES Permit. The letter indicated that construction dewatering project has been completed and the permit is no longer needed. On July 15, 2016, Board staff inspected the project site and verified that there is no discharge of groundwater from the project site to the storm drain. Since there is no discharge of groundwater from the site, coverage under Board Order R4-2013-0095, General NPDES Permit No. CAG994004, CI-9969 for the facility is hereby terminated except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Namiraj Jain at (213) 620-6003.

Sincerely,

Samuel Unger, P.E.  
Executive Officer
