NOTICE OF APPLICABILITY; GENERAL SECTION 401 WATER QUALITY CERTIFICATION ORDER REQUIREMENTS FOR THE UNITED STATES ARMY CORPS OF ENGINEERS 2026 NATIONWIDE PERMITS VILLAGE WEST MARINA LLC, VILLAGE WEST MARINA DOCK RECONFIGURATION PROJECT (WDID#5B39CR00448), SAN JOAQUIN COUNTY

On 17 June 2026, Village West Marina LLC (Applicant) filed a notification requesting coverage under the 15 March 2026 State Water Resources Control Board Clean Water Act Section 401 General Water Quality Certification and Order of the United States Army Corps of Engineers 2026 Nationwide Permits Order No. WQ 2025-0066-DWQ (General Certification Order) for the Village West Marina Dock Reconfiguration Project (Project). After reviewing the notification and the supplemental material submitted by the Applicant, the Central Valley Regional Water Quality Control Board (Central Valley Water Board) has determined that the Project qualifies for enrollment under this General Certification Order.

The Central Valley Water Board is certifying this Project under United States Army Corps of Engineers Nationwide Permit #28 (Modification of Existing Marinas), subject to the conditions and the notification requirements described in the Nationwide Permit ("Special Conditions"). This Notice of Applicability is being issued under the General Certification Order pursuant to Section 3838 of the California Code of Regulations.

A copy of the General Certification Order (https://www.waterboards.ca.gov/water_issues/programs/cwa401/docs/2026/nwp2026-general-order.pdf) can be found on the State Water Resources Control Board's General Order webpage and is enclosed.

The Project must proceed in accordance with the requirements contained in this Notice of Applicability and General Certification Order. The Project is described in the notification form requesting coverage under the General Certification Order, dated 17 June 2026, and supplementary information (Application Package). Coverage under

the General Certification Order is no longer valid if the Project (as described) is modified.

PROJECT DESCRIPTION:
The project includes removing an existing covered boat storage shed containing approximately 30 slips for small boats, and adding 15 larger, uncovered slips to the open sides of an existing covered shed, adjacent to the shed being completely removed from the marina harbor.

The shed removal process involves lifting approximately 16 telescoping pipe pile anchors, floating the entire structure to the adjacent embankment, and removing sections with a crane for off-shore demolition and off-site disposal. The pile removal process involves the use of inflatable devices on each pile to enable the use of air to lift the piles out of the water and enable the shed to be floated away. Once the old shed is floated away, 15 new and longer prefabricated boat slip fingers will be floated in place and anchored to the existing head-walks on the open sides of an existing adjacent shed. The ends of each new finger will be anchored with 6-inch diameter steel telescoping piles. The Piles will be installed utilizing the weight of a pile section to sink into the shallower harbor substrate. The Project will reduce the water surface area covered by dock sheds and boat slips.

PROJECT LOCATION:
6649 Embarcadero Drive, Stockton CA.

Latitude: 37.999408° and Longitude: -121.369708°

PROJECT SCHEDULE:
1 August 2026 through 15 October 2026

APPLICATION FEE RECEIVED:
An application fee of $ 4,212.00 was received on 17 July 2026.

The fee amount was determined as required by California Code of Regulations, title 23, sections 3833(b)(3) and 2200(a)(3), and was calculated as category E - Low Impact Discharges (fee code 87) with the dredge and fill fee calculator.

Annual Fees: This authorization is subject to annual billing based on the fee schedule in effect at the time of billing. Annual billing will continue until the Project, including monitoring, is complete and the Water Board receives an acceptable request for a Notice of Project Complete Letter (see Attachment D). Invoices are usually sent out at the end of each calendar year. [1]

[1] Annual invoices are issued for projects active for any amount of time in the current fiscal year (1 July – 30 June).

To stop annual billing, the Permittee must request a Notice of Project Complete Letter from the Water Board. Water Board staff will verify if the conditions of the Order are met and may conduct a site visit to confirm compliance.

For more information on fees, visit the State Water Board's Water Quality Fees website (https://www.waterboards.ca.gov/resources/fees/water_quality/), under Water Quality Certification (WQC) Program Fees.

This Notice of Applicability is subject to annual billing based on the fee schedule in effect at the time of billing. Annual billing will continue until the Project, including monitoring, is complete and the Central Valley Water Board receives an acceptable request for a Notice of Project Completion (see Attachment B of General Order No. WQ 2025-0066-DWQ). Invoices are usually sent out at the end of each calendar year.

To stop annual billing, the Permittee must request a Notice of Project Completion from the Central Valley Water Board. Central Valley Water Board staff will verify if the conditions of the Notice of Applicability are met and may conduct a site visit to confirm compliance.

For more information on fees, visit the State Water Board's Water Quality Fees website Water Quality Fees | California State Water Resources Control Board (https://www.waterboards.ca.gov/resources/fees/water_quality/) under Water Quality Certification (WQC) Program Fees.

If you have any questions regarding this Notice of Applicability, please contact Nicholas Savino by phone at (916) 464-4920 or by email at Nicholas.Savino@waterboards.ca.gov.
