TERMINATION OF TECHNICAL REPORTING ORDER R5-2023-0812 FOR SUBMITTAL OF TECHNICAL REPORTS, 5017 OLIVEHURST AVENUE AND 5013 OLIVEHURST AVENUE APARTMENT B, OLIVEHURST, YUBA COUNTY

On 19 October 2023, the Central Valley Water Board issued Technical Reporting Order R5-2023-0812 (Order) to the Geneva Kano Revocable Living Trust (Trust). The Order required the Trust to submit a technical report documenting the collection and analytical results of groundwater samples from domestic water supply wells located on the properties at 5017 Olivehurst Avenue and 5013 Olivehurst Avenue Apartment B in Olivehurst and the laboratory analysis results of those samples. The Trust did not comply with the requirements of the Order.

At the time the Order was issued, the Trust owned the 5017 Olivehurst Avenue property. In March 2024, the Trust sold 5017 Olivehurst Avenue to you. The Trust still owns 5013 Olivehurst Avenue Apartment B. In May 2024, you granted access to your property, and Central Valley Water Board staff (Staff) sampled two domestic wells located on the 5017 Olivehurst Avenue property. During sampling, Staff visually determined that 5013 Olivehurst Avenue Apartment B did not have any domestic wells located on that property. Staff does not have a viable address for the Trust; therefore, Staff is notifying you, as the current property owner, that the requirements of the Order have been fulfilled.

MARK BRADFORD, CHAIR | PATRICK PULUPA, ESQ., EXECUTIVE OFFICER

By completing sampling of the domestic wells, Staff fulfilled the requirements of the Order, and the Order can be terminated. Therefore, Technical Reporting Order R5-2023-0812 is hereby terminated. However, Staff requests that you comply with any future Central Valley Water Board directives issued to you.

If you have any questions about this letter or termination of the Order, please call Michael DeSmet at (916) 464-4830 or email at michael.desmet@waterboards.ca.gov.

Sincerely,

For PATRICK PULUPA
Executive Officer
