NOTICE OF PUBLIC HEARING
Concerning

**TENTATIVE WASTE DISCHARGE REQUIREMENTS
FOR
BOGLE VINEYARDS INC. AND BOGLE FAMILY LIMITED PARTNERSHIP
BOGLE DELTA WINERY
YOLO COUNTY**

TO ALL CONCERNED PARTIES AND AGENCIES

In an upcoming public meeting, the Central Valley Regional Water Quality Control Board (Central Valley Water Board) will consider adoption of tentative Waste Discharge Requirements (WDRs) and a tentative Monitoring and Reporting Program (MRP) for Bogle Vineyards Inc. and Bogle Family Limited Partnership (collectively, Discharger) as the owner and operator for the Bogle Delta Winery (Facility).

This is an existing winery facility located at 49792 Hamilton Road, Clarksburg in Yolo County. The treatment and land discharge of winery process wastewater to three aerated facultative ponds and 122 acres of land application areas (LAAs) is already regulated by Waste Discharge Requirements (WDRs) Order R5-2011-0033, as adopted by the Central Valley Water Board on 9 June 2011.

The Discharger is proposing to replace the existing domestic wastewater treatment system permitted by Yolo County with a membrane bioreactor (MBR) and ultraviolet (UV) system. Domestic wastewater will be treated to disinfected secondary-2.2 recycled water standards and comingled with winery process wastewater prior to discharge to the process wastewater treatment pond system and then to the LAAs. The LAAs will be increased from 122 acres to 261 acres. There are no changes to the existing flow limits. New WDRs are needed to ensure the discharge will comply with current water quality plans and policies and to reflect the proposed updates to the Facility's treatment and disposal operations.

A public hearing concerning this matter will be held during the Central Valley Water Board meeting scheduled for:
