APPROVAL OF THE 2025 WATER YEAR REVISED WATER YEAR MONITORING PLAN UPDATE– SAN JOAQUIN COUNTY AND DELTA WATER QUALITY COALITION

Thank you for submitting the San Joaquin County and Delta Water Quality Coalition's (Coalition) revised Monitoring Plan Update (MPU) on 2 October 2024 for the 2025 Water Year. This revision is required because staff noted a ng/L unit error in our Pesticide Evaluation Protocol process that affected the ug/L calculation of previous pyrethroid exceedances. The updated Pesticide Evaluation Protocol workbook includes the correct units and calculations. Additional pyrethroid monitoring (33 instances), along with the associated *H. azteca* water column toxicity, is added to the 2025 Water Year.

Staff determined that the Coalition's revised schedule includes appropriate pyrethroid and toxicity monitoring, and that the proposed monitoring plan complies with the MRP requirements and the Coalition's monitoring strategy.

I approve of the Coalition's revised MPU for the 2025 Water Year. Any proposed changes to the MPU must be approved by the Executive Officer prior to implementation.

If you have questions regarding this letter, please contact Chris Jimmerson by email at chris.jimmerson@waterboards.ca.gov.

Sincerely

Adam Laputz  Digitally signed by Adam Laputz
