COMPLAINT NO. R2-2010-0040

ADMINISTRATIVE CIVIL LIABILITY
IN THE MATTER OF
HORNBLOWER YACHTS, INC.
PIER 3 and 33 ON THE EMBARCADERO
SAN FRANCISCO, SAN FRANCISCO COUNTY

This Complaint is issued to Hornblower Yachts, Inc. (“Discharger”) to assess administrative civil liability pursuant to California Water Code (“CWC”) Section 13385. The Complaint addresses the Discharger’s failure to submit a required annual report by July 1, 2009, as required by the State Water Resources Control Board’s (“State Water Board’s”) Water Quality Order No. 97-03-DWQ National Pollutant Discharge Elimination System (NPDES) General Permit No. CAS000001, Waste Discharge Requirements for Discharges of Storm Water Associated with Industrial Activities (“General Permit”). The violations cited herein occurred from July 2, 2009, through September 25, 2009).

The Assistant Executive Officer of the California Regional Water Quality Control Board, San Francisco Bay Region (“Regional Water Board”) hereby gives notice that:

1. The Discharger is alleged to have violated provisions of the law for which the Regional Water Board may impose civil liability pursuant to CWC Section 13385. This Complaint proposes to assess \$3,925 in penalties for the violations cited based on the considerations described herein. The deadline for comments on this Complaint is February 26, 2010, at 5 p.m.
2. Unless waived, the Regional Water Board will hold a hearing on this matter on May 12, 2010, in the Elihu M. Harris State Building, First Floor Auditorium, 1515 Clay Street, Oakland, California, 94612. The Discharger or its representative(s) will have an opportunity to be heard and to contest the allegations in this Complaint and the imposition of civil liability by the Regional Water Board. The Discharger will be mailed an agenda approximately ten days before the hearing date. The Discharger must submit any written evidence concerning this complaint to the Regional Water Board not later than 5 pm on March 18, 2010, so that such comments may be considered. Any written evidence submitted to the Regional Water Board after this date and time will not be accepted or responded to in writing.
3. At the hearing the Regional Water Board will consider whether to affirm, reject, or modify the proposed administrative civil liability, or whether to refer the matter to the Attorney General for recovery of judicial civil liability.

If this matter proceeds to hearing, the Prosecution Team reserves the right to seek an increase in the civil liability amount to cover the costs of enforcement incurred subsequent to the issuance of this Complaint through hearing. The Discharger can waive its right to a hearing to contest the allegations contained in this Complaint by submitting a signed waiver and paying the civil liability in full as described in the attached waiver form.

4. Issuance of this Complaint is exempt from the provisions of the California Environmental Quality Act (Public Resources Code 21000 et seq.) in accordance with Section 15321 of Title 14, California Code of Regulations.

STATEMENT OF WATER CODE SECTIONS UPON WHICH LIABILITY IS BEING ASSESSED:

5. Pursuant to CWC Section 13385(a)(3), any person who violates any requirements established pursuant to CWC Section 13383 (reporting requirements established by the State Water Board), shall be civilly liable. CWC Section 13385(c)(1) states that civil liability may be imposed administratively by the Regional Water Board in an amount not to exceed ten thousand dollars (\$10,000) for each day in which the violation occurs.
6. In determining the amount of any liability imposed under CWC Section 13385, the Regional Water Board shall take into account the nature, circumstances, extent, and gravity of the violation or violations, whether the discharge is susceptible to cleanup or abatement, the degree of toxicity of the of the discharge, and, with respect to the violator, the ability to pay, the effect on its ability to continue its business, any voluntary cleanup efforts undertaken, any prior history of violations, the degree of culpability, economic benefit or savings, if any, resulting from the violation , and other matters that justice may require.

FACTUAL BASIS OF THE ALLEGED VIOLATIONS IN THIS MATTER:

7. Provision E(1) of the General Permit requires that all facility operators seeking coverage under the General Permit file a Notice of Intent (NOI) for each of the facilities they operate. The Discharger submitted a Notice of Intent (NOI) to the State Water Board to obtain coverage under the General Permit. The Discharger's Waste Discharge Identification Number is 2 38I020333.
8. Section B—Monitoring and Reporting Requirements, Number 14 of the General Permit requires all facility operators to submit an annual report documenting its sampling and analyses, observations, and an annual comprehensive site compliance evaluation, by July 1 of each year.
9. The Discharger violated the General Permit by failing to submit its 2008/2009 annual report by the July 1, 2009, deadline.

This is a violation of a reporting requirement established by the State Water Board pursuant to CWC Section 13383 for which administrative civil liability may be imposed pursuant to CWC Section 13385(a)(3).

10. On August 3, 2009, the Assistant Executive Officer issued a Notice of Noncompliance letter to the Discharger by certified mail, return receipt requested. This letter informed the Discharger that it was in violation of the General Permit and that the Executive Officer would recommend enforcement actions, including imposition of administrative civil liability up to \$10,000 per day, if an annual report was not submitted. The Regional Water Board received the return receipt for this notice, which indicates the Discharger received the notice on August 17, 2009.
11. Regional Water Board staff did not receive any comment from the Discharger on the August 3, 2009, Notice of Non-compliance.
12. The Discharger submitted its annual report on September 25, 2009.
13. Board staff confirmed that the facility was still in business at the above address via telephone and/or mail on September 24 and September 28, 2009.
14. The Discharger was in violation of the General Permit for a total of 85 days (July 2, 2009, through September 25, 2009).

FACTORS CONSIDERED

15. Under CWC Section 13385(e), the Regional Water Board's Assistant Executive Officer considered the following factors in determining the amount of civil liability to be imposed:

- a. The Nature, Circumstances, Extent, and Gravity of the Violation:

These annual reports are a key means of determining the quality of stormwater runoff from the Discharger's site and ensuring the Discharger is implementing appropriate control measures at the site. Additionally, they are one of the Discharger's primary tools to self-evaluate site compliance with the permit and to identify any needed improvements.

The Discharger was sent a Notice of Noncompliance letter and was contacted via telephone & fax.

- b. Toxicity of Discharge and Susceptibility to Cleanup

The violation for which liability is proposed is a failure to submit a required report.

The report is required to include quantitative and qualitative information on the amounts and/or presence of certain pollutants in discharges from the subject facility, as well as information on remedial actions taken by the Discharger to halt or minimize polluted discharges from its facility. In the absence of this information, it is not possible to make a more specific determination on this factor, and civil liability is not proposed for a specific discharge.

c. Discharger's Ability to Pay:

It is believed that the Discharger will be able to pay the proposed civil liability. According to Manta.com online business records, Hornblower Yacht Inc. was established in 1984 and incorporated in California. Current estimates show this company has an annual revenue of \$20 to 50 million and employs a staff ranging between 50 to 99 employees.

d. Prior History of Violations:

The Regional Water Board does not have any records of permit violations from previous years for the Discharger.

e. Degree of Culpability:

The Discharger is fully culpable for violating the terms and conditions of the General Permit, which implements the Clean Water Act. Section 402(p) of the Federal Water Pollution Control Act ("Clean Water Act") establishes a framework for regulating municipal and industrial storm water discharges under the NPDES Program that is applicable to all specified industrial sites on a nationwide basis. The U.S. Environmental Protection Agency regulations allow authorized states, such as California, to issue general permits to regulate storm water discharges (e.g., the General Permit). By filing an NOI, the Discharger demonstrated its knowledge of and intent to comply with the General Permit requirements.

f. Savings Resulting from the Violation:

The Discharger has realized cost savings by failing to timely submit an annual report. The minimum savings for submitting a late report are estimated at \$1,000. The proposed liability of \$3,925 is greater than the economic benefit obtained from the delayed compliance.

g. Other Matters That Justice May Require:

Staff time to prepare this Complaint and supporting information is estimated to be 10 hours.

Additionally, issuance of the Complaint requires publication of a Public Notice in a newspaper of general circulation at a cost of approximately \$300. Based on an average cost to the State of \$150 per hour, the total staff cost is estimated to be \$1,800.

PROPOSED CIVIL LIABILITY

16. Based on the consideration of the above facts, the Assistant Executive Officer of the Regional Water Board proposes that an administrative civil liability be imposed in the amount of \$3,925. Of this amount, \$1,800 is for recovery of staff costs.
17. Further failure to comply with the General Permit or amendments thereof beyond the date of this Complaint may subject the Discharger to further administrative civil liability, and/or other appropriate enforcement action(s), including referral to the Attorney General.

The Complaint and related documents, including the procedure for Water Board hearings (with deadlines for submitting comments), are available at http://www.waterboards.ca.gov/sanfranciscobay/public_notices/pending_enforcement.shtml. The Prosecution Team may amend and re-notice its Complaint in response to comments from the Discharger and the public.

The Water Board will hold a hearing on May 12, 2010 to consider adoption of the ACL and/or referral of the matter to the Attorney General, unless the Discharger waives its right to a hearing within 90 days. The 90-day hearing requirement may be waived to pay the penalty as proposed, extend deadlines, or pursue settlement and/or a supplemental environmental project.
