Subject: re:Administrative Civil Liability Complaint # R2-2011-0005

Mr. Kifle,

I am a resident of Sausal Creek watershed in Oakland, CA. I live on Sausal Creek and consequently am interested in the welfare of the creek. On August 5, 2010 EBMUD crew's unauthorized discharge into the creek killed twenty five rainbow trout. We have been working for a long time to insure the population of trout in upper Sausal Creek. I believe that the settlement of Administrative Civil Liability Complaint #R2-2011-0005 should include a Supplemental Environmental Project(SEP) to support habitat restoration along Sausal Creek.

Sincerely, Karen Marie Schroeder
