

STATE OF CALIFORNIA  
REGIONAL WATER QUALITY CONTROL BOARD  
SAN FRANCISCO BAY REGION

STAFF SUMMARY REPORT (Lindsay Whalin)  
MEETING DATE: April 11, 2012

ITEM: **5B**

SUBJECT: **City of Hayward and Waste Management of Alameda County, Inc., West Winton Landfill, Alameda County – Updated Waste Discharge Requirements and Rescission of Order No. 95-088**

CHRONOLOGY: 1972 - Waste Discharge Requirements adopted  
1995 - Updated Waste Discharge Requirements adopted

DISCUSSION: The Tentative Order for the West Winton Landfill (Appendix A) would update its waste discharge requirements principally to reflect updated landfill regulations and require changes to its operations and maintenance and self-monitoring plans. The Landfill is an approximately 60-acre municipal landfill, located on the Hayward Regional Shoreline. Closed in 1976, the Landfill is currently in post-closure maintenance and monitoring and serves as a public park and part of the Bay Trail.

We circulated a draft tentative order to Waste Management, the City of Hayward, and interested parties, and received no comments. Waste Management and the City have indicated agreement with the Tentative Order, and we expect this item to remain uncontested.

RECOMMEN-  
DATION: Adoption of the Tentative Order

File No.: 273749 (LW)

Appendix A: Tentative Order
