for

**Central Contra Costa Sanitation District Wastewater Treatment Plant
5019 Imhoff Place
Martinez, Contra Costa County**

Central Contra Costa Sanitation District has filed an application for re-issuance of its permit under the National Pollutant Discharge Elimination System. The San Francisco Bay Regional Water Quality Control Board's (Water Board's) staff has prepared a tentative permit for this discharger containing limitations and provisions in accordance with the Federal Clean Water Act and the California Porter-Cologne Water Quality Control Act.

Central Contra Costa Sanitary District owns and operates a wastewater treatment plant that discharges about 40 million gallons per day of treated domestic and industrial wastewater into Suisun Bay through a deep water outfall. The treatment plant is located north of Concord and east of Martinez, and it provides service for about 455,000 people, including residents of Danville, Lafayette, Martinez, Moraga, Orinda, Pleasant Hill, San Ramon, Walnut Creek, Concord, Clayton, and adjacent unincorporated areas, including Alamo, Blackhawk, Clyde, and Pacheco.

The Regional Water Board intends to consider adopting the tentative permits during a meeting to commence at the time and location as follows:

Time and Date:	9:00 a.m., February 8, 2012
Location:	Auditorium, Elihu Harris State Building 1515 Clay Street, Oakland
