November 8, 2012  
To: Blair Allen

The RWQCB's Draft Tentative Order for Russell City Energy Center Recycled Water Facility has incorporated all our comments and recommendations that were stated in our letter, dated July 20, 2012, to the RWQCB (Bruce Wolfe).

There is a minor typo error on page 7 of 14, 2<sup>nd</sup> paragraph of Section. 20. Supplemental Water Supply, Potable Water Supply and Cross-Connection Control. The statement "A reverse-pressure-principle (RPP) device" should be rephrased to read "A reduced pressure backflow preventer (RPP) device."

Ms. McBride, et al -

Attached for your review and comment is a draft Water Recycling Requirements Order for the Russell City Energy Center recycled water project ("Russell City Recycling WRR Tentative Order 11-7-12.pdf") .

Also attached is a cover letter that explains the subject and process more completely.  
Review and comment period is November 7, 2012 through December 10, 2012.

If you know of other persons that may be interested in this matter, please forward this to them also.  
If you have any questions, please call or email me.

Sincerely,  
Blair Allen, P.E., Water Resources Control Engineer
