

STATE OF CALIFORNIA  
CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN FRANCISCO BAY REGION

STAFF SUMMARY REPORT (Dylan Garner)  
MEETING DATE: October 9, 2013

ITEM: **5C**

SUBJECT: **Crockett Community Services District, Port Costa Wastewater Treatment Plant, Port Costa, Contra Costa County - Reissuance of NPDES Permit**

CHRONOLOGY: January 2008 - Permit reissued

DISCUSSION: This Revised Tentative Order (Appendix A) would reissue the NPDES permit for the Port Costa Wastewater Treatment Plant, which serves about 250 people within the Port Costa community. The plant discharges about 0.015 million gallons per day of treated wastewater to Carquinez Strait through a submerged outfall and diffuser approximately 60 feet offshore.

Crockett Community Services District, which manages the plant, submitted comments (Appendix B) on a draft permit distributed for review. We prepared responses to its comments (Appendix C) and revised the draft in some cases. We expect this item to remain uncontested.

RECOMMEN  
DATION: Adoption of the Revised Tentative Order

CIWQS Place: 248886
