

STATE OF CALIFORNIA
CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

STAFF SUMMARY REPORT (Agnes Farres)
MEETING DATE: May 14, 2014

ITEM: 5B

SUBJECT: DEPARTMENT OF THE ARMY, NATIONAL PARK SERVICE, AND PRESIDIO TRUST, PRESIDIO OF SAN FRANCISCO, CITY AND COUNTY OF SAN FRANCISCO – Rescission of Site Cleanup Requirements Order No. R2-2003-0080

CHRONOLOGY: Site Cleanup Requirements (SCRs) adopted in 2003

DISCUSSION: The Tentative Order (Appendix A) would rescind SCRs for the Presidio of San Francisco, a former Army installation and currently part of the Golden Gate National Recreation Area. Historical military activities resulted in petroleum hydrocarbons and related constituents contaminating soil and groundwater beneath the Presidio. The 2003 order identified responsible parties and established a schedule for corrective actions and cleanup standards based on current and planned uses for the Presidio, which include recreational, wetland, residential, and commercial uses. The Presidio’s pollutants have been remediated by a combination of soil excavation and offsite disposal, soil vapor extraction, groundwater treatment and extraction, in-situ bioremediation, thermal remediation, and natural attenuation. All tasks in the order have been completed.

The Department of the Army, the National Park Service, and the Presidio Trust have indicated acceptance of the Tentative Order, and no comments were received on the Tentative Order during its public comment period. We have made minor editorial revisions to the Tentative Order and anticipate that it will remain uncontested.

**RECOMMEN-
DATION:** Adoption of the Tentative Order
