

STATE OF CALIFORNIA  
CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN FRANCISCO BAY REGION

STAFF SUMMARY REPORT (Susan Glendening)  
MEETING DATE: November 9, 2016

**ITEM:** 8

**SUBJECT:** **Santa Clara Valley Water District and U.S. Army Corps of Engineers, Upper Berryessa Creek Flood Risk Management Project, Santa Clara County** – Adoption of Waste Discharge Requirements and Water Quality Certification

**CHRONOLOGY:** The Executive Officer issued a conditional water quality certification for this project on March 14, 2016.

**DISCUSSION:** The tentative order for this item would issue waste discharge requirements and reissue water quality certification to the District and the Corps to implement the Upper Berryessa Creek Flood Risk Management Project. The Project is intended to increase flood protection in the area surrounding Upper Berryessa Creek, including the future BART station.

We recommend continuing this item to a future Board meeting to provide additional time to meet with the District, the Corps, and interested stakeholders to discuss revisions to the tentative order that would incorporate provisions from the existing 401 water quality certification into the tentative order.

**RECOMMEN-  
DATION:** Continue item to a future Board meeting

**CIWQS Place  
Number:** 818597
