Water Quality Control Board

February 21, 2018

From: Friends of Watson Park

To: Margaret Monahan
San Francisco Bay Regional Water Quality
Control Board
1515 Clay Street, 14th Floor
Oakland, CA 94612

Dear Ms Monahan:

Friends of Watson Park exists to promote the beneficial use of Watson Park in the Northside of San Jose. Watson Park is adjacent to Coyote creek and several times a year our members perform service work cleaning up the park and the creek. We believe the health of our waterways is fundamentally essential to the wellbeing of our community. We are highly disappointed that our neighboring business, Munoz Granite has failed to comply with regulatory requirements and we fully support the levy of the \$14,000 fine.

Thank you,

Carol Beebe, President

Malissa Magallanez, Secretary
