REGIONAL WATER QUALITY CONTROL BOARD  
SAN FRANCISCO BAY REGION

STAFF SUMMARY REPORT: Eileen White, Maggie Monahan, and Demir Worthington  
MEETING DATE: May 8, 2024

**ITEM: 7**

**San Francisco Bay Regional Water Quality Control Board Strategic Workplan – Informational Item**

**DISCUSSION**

This item will present an update of the San Francisco Bay Regional Water Quality Control Board Strategic Workplan (Strategic Workplan). The Strategic Workplan was developed to provide an overview of what we do and to create transparency about our work to the public we serve. It describes our overarching organizational priorities, and the water quality programs we implement to achieve our mission to preserve, enhance, and restore the quality of the San Francisco Bay Region's water resources for the protection of the environment, public health, and all beneficial uses.

The Strategic Workplan includes organizational priorities and actions, priorities by program and the associated targets and milestones, along with performance measures and targets tracked by the State Water Board.

The Strategic Workplan was presented to the Board in March of 2023 and has been reviewed and updated to incorporate the next fiscal year's performance targets and will continue to be updated on a bi-annual basis. The Strategic Workplan is dynamic, enabling us to respond to future challenges and changing priorities. We will report to the Board each year on our annual achievements.
