FOR
WASTE DISCHARGE REQUIREMENTS AND CLEAN WATER ACT SECTION 401
CERTIFICATION FOR DREDGED OR FILL MATERIAL DISCHARGES FOR COUNTY
OF RIVERSIDE TRANSPORTATION DEPARTMENT, GILMAN SPRINGS
SHOULDER AND MEDIAN WIDENING PROJECT
TENTATIVE ORDER NO. R8-2023-0011**

NOTICE IS HEREBY GIVEN that the Santa Ana Regional Water Quality Control Board (Santa Ana Water Board) is releasing for public review and comment tentative Order No. R8-2023-0011 (Tentative Order) to County of Riverside Transportation Department (Discharger) for Gilman Springs Shoulder and Median Widening Project (Project). The objective of the Project is to improve safety and traffic operations by eliminating the hazards associated with narrow, undivided roadways on Gilman Springs Road. The Project would reconstruct the existing roadway to a configuration that includes 5-foot graded shoulders, 5-foot paved shoulders with rumble strips, a 12-foot lane in each direction, and a 4-foot double yellow striped median with rumble stripes and impact resistant channelizers in the median. The Project would also include one approximately 6,900-foot long passing lane in the northbound direction from approximately 1,350 feet north of Bridge Street to approximately 1,200 feet north of Eden Springs. The implementation of the Project would result in a total of 0.267-acre permanent impact and 0.137-acre temporary impact to non-wetland waters of the state.

The Santa Ana Water Board intends to consider adopting the Tentative Order during a public hearing at a regularly scheduled Santa Ana Water Board meeting as follows:
