Applicant Name: Arlene Chun

Waterboard Staff: TBA

Brief Description of Project:

Project Description: Maple lane drainage routine maintenance activities will include ongoing regular maintenance (approximately 2-3 weeks of work, twice per year) to maintain capacity, reduce erosion potential, and protect all nearby roadways.

Project Activities: Activities required by San Bernardino County Department of Public Works to operate and maintain this adjacent road drainage include the following: maintenance and repair of basin and channel slopes, rock bottom control structures, other grouted and un-grouted rock features, cleaning of culvert inlets and outlets, sediment removal from basin and channel bottom, or possibly sediment redistribution to maintain grade, chain link fencing repairs, debris, and trash removal, vector control and pest management as needed; graffiti removal limited vegetation management, and ingress-egress grading and repairs. The total maintenance area includes approximately 15-20' area of channel and adjacent slopes, and the total maintained area length is approximately 1600 LF.
