

Notice of Intent (NOI) Application Reception

File Number: 362025-11

Project Name: Wildwood Creek Emergency 2025

Received: 3/11/2025

Date Posted: 3/25/2025

End of 21 Day Public Comment Period: 4/15/2025

Project City: Yucaipa

Project County: San Bernardino

Applicant Organization: San Bernardino County Flood Control District

Applicant Name: Arlene Chun

Waterboard Staff: TBA

Brief Description of Project:

Project Description: The Yucaipa area received an atmospheric rainstorm between February 12-14, 2025. Another storm came into the area on March 5th and 6th adding more water to the overburdened channel. In addition, runoff from surrounding urban areas entered the channel and overwhelmed Wildwood Creek and its levees. This intense storm surge brought in significant amounts of sediment and debris, requiring the rapid removal of debris to restore the channel to its full operational capacity. Emergency repairs are essential to repair this levee/berm to reduce risk to life and property.

Project Activities: Heavy equipment will remove excess sand, silt, sediment and debris to restore the facility to its designed capacity. Water Quality BMPs will be implemented as necessary and include, but are not limited to, waddles, constructing check dams or other sediment control measures as needed at downstream limits of work, grading and compacting loose materials as necessary, removing built-up sediment/vegetation as necessary to prevent transport of such materials into downstream Waters.
