CalWATRS Webinars for Agents

December 9, 2025

1:30 PM – 2:30 PM

[Zoom link for Agents Webinar](#) – registration is not required.

OVERVIEW

Notice is hereby given that staff of the State Water Resources Control Board (State Water Board or Board), Division of Water Rights, will hold two public webinars about the new California Water Accounting, Tracking, and Reporting System (CalWATRS). CalWATRS is the state's new and improved water rights data system. With CalWATRS, water right holders now have a streamlined way to view all their water right records, file annual reports, and request water rights services.

DETAILS

The first webinar will focus on how businesses, agencies, and other groups (collectively called organizations) interact with CalWATRS. This webinar will include an overview of key features and walkthroughs of how to set up an organization, how to add people to the organization, how to access records, and more. The webinar will also include a Q&A session.

The second webinar will focus on how water rights agents interact with CalWATRS. This webinar will go over the definition of an agent, how to become the official agent of a water right, and how different types of agents can set up their CalWATRS accounts. The webinar will also include a Q&A session.

HOW TO PARTICIPATE

Both webinars will be held via Zoom. Registration is not required. To access the webinars, use the links or follow the instructions to join by phone on the next page:

CalWATRS for Organizations Webinar
