BACKGROUND

On July 27, 1992, James J. Hill III (Applicant) filed water-right Application 30166 on behalf of El Sur Ranch with the State Water Resources Control Board's (State Water Board or Board) Division of Water Rights (Division) for a permit to appropriate water from the Big Sur River in Monterey County. The Applicant amended Application 30166 in November and December 2005, October 2006, June 2011, and March 2023. The current application is for a water-right permit that would authorize direct diversion of water at a rate not to exceed 5.84 cubic feet per second (cfs) and diversion to storage of up to 810 acre-feet, with an annual maximum combined diversion of 1,320 acre-feet, and a maximum 20-year rolling annual average of 1,087 acre-feet. Additional information about this proceeding is in the Administrative Hearings Office's (AHO) May 24, 2022 Notice of Status Conference.

The State Water Board held a public hearing on Application 30166 in June and July 2011. On December 9, 2021, the Board's Executive Director assigned Application 30166 to the AHO. Since the Executive Director's assignment, the AHO has held multiple status conferences in this proceeding, most recently on October 4, 2024.

The Applicant submitted a petition to change and Fifth Amended Application 30166 to the Division on March 3, 2023. The petition seeks to amend Application 30166 to include diversion to storage in an off-stream reservoir to be located on the Applicant's property and revision of the place of use to substitute additional irrigated acreage to compensate for the loss of existing pasture from construction of the reservoir. On July 28, 2023, El Sur Ranch filed an amended petition for change and Fifth Amended Application to add fire suppression as a beneficial use.

Before the October 4, 2024, status conference, the Applicant submitted a proposed schedule for drafting, submitting to the AHO, and accepting public comment on key documents in the CEQA process.

STATUS CONFERENCE RULING

During the October 4, 2024 status conference, the hearing officer and the parties discussed a schedule for the completion of the administrative draft of the Applicant's CEQA document. In accordance with that discussion, the hearing officer sets the deadlines listed below for the Applicant, and Montrose Environmental acting as a consultant to the Applicant, and the parties to this proceeding, to complete the described tasks.

The requests for information in this ruling are made by the AHO pursuant to Water Code sections 1275. Failure of the Applicant to provide the requested information by the deadlines may result in cancellation of the application.
