Subject: "Comment Letter – Changes to Proposed Regulation Prohibiting Wasteful Water Use Practices."
Date: Wednesday, February 14, 2018 9:17:25 AM

Jeanine Townsend, Clerk to the Board State Water Resources Control Board
P.O. Box 100
Sacramento, CA 95812-2000

Dear Ms Townsend:

I just read in my paper this morning of the proposed changes on making wasteful water practices designed for drought stages permanent. I hereby express my opposition to such over reach by the Water Resources Board. Such action is unnecessary. The citizens of California responded to the Governor's directive during the drought and local water districts imposed wasteful rate increases and fines that accomplished the water use reductions required. My own water district still has still retained water stage rate restrictions to encourage continued water conservation. Your additional rules are unnecessary and an abuse of power.

Sincerely,
Robert W Stites
