

State Water Resources Control Board

**CLEAN WATER ACT SECTION 401 WATER QUALITY CERTIFICATION
ORDER NO. WQ 2025-0021-DWQ AND
NOTICE OF APPLICABILITY FOR ENROLLMENT UNDER STATE WATER BOARD
GENERAL ORDER FOR THE CORPS' NATIONWIDE PERMITS
(ORDER NO. [WQ] 2020-0039-EXEC)**

Effective Date: Upon Deputy Director's Signature

Program Type: Fill/Excavation

Project Type: Overhead Utility

Project: TD1967124 and TD2220216 Silver Lake Meadow
Regulatory Measure ID: 460128
WDID: SB25008IN

Applicant: Southern California Edison
Applicant Contact: Robert LeMoine
Director of Environmental Services
2244 Walnut Grove Avenue
Rosemead, CA 91770
Phone: (626) 302-4476
Email: Robert.F.LeMoine@sce.com

State Water Board Staff: Shawn Agarwal
Environmental Scientist
1001 I Street
Sacramento, CA 95814
Phone: (916) 323-0886
Email: Shawn.Agarwal@waterboards.ca.gov

State Water Board Contact Person:

For further assistance, please call the State Water Resources Control Board (State Water Board) Staff listed above or (916) 322-7781 and ask to speak with the Wetlands Permitting and Enforcement II Unit Supervisor.

E. JOAQUIN ESQUIVEL, CHAIR | ERIC OPPENHEIMER, EXECUTIVE DIRECTOR

I. Summary

This Notice of Applicability for enrollment under the State Water Board General Order for the Nationwide Permits (Order No. [WQ] 2020-0039-EXEC; SWRCB ID SB20031GN; hereafter referred to as the General Order) is issued at the request of Southern California Edison (Applicant). The General Order can be accessed at [the Clean Water Act Section 401 - Certification and Wetlands Program, General Orders webpage](https://www.waterboards.ca.gov/water_issues/programs/cwa401/generalorders.html#yr_2020) (https://www.waterboards.ca.gov/water_issues/programs/cwa401/generalorders.html#yr_2020). On February 25, 2025, the State Water Board received a complete Notice of Intent requesting authorization for the Applicant's TD1967124 and TD2220216 Silver Lake Meadow (Project). After reviewing the Notice of Intent, the State Water Board has determined that the Project meets General Order requirements for Nationwide Permit 57: Electric Utility Line and Telecommunications Activities.

This order also serves as an individual certification (Certification) for the Project enrolling under U.S. Army Corps of Engineers' Nationwide Permit 57 pursuant to Clean Water Act Section 401.

II. Project Description

As described in the Project Notice of Intent and supplemental information (hereafter referred to as the Application), which is incorporated herein by reference, the purpose of the Project is to replace two anchors at Pole 1930105E; install a ground rod at Pole 24959S; install an anchor at Pole 1600181E; and install a pole and splice box with a concrete anchor at Pole 1600180E. Soil disturbance and infrastructure fill will temporarily and permanently impact wetlands.

III. Project Location

The Project is located in the census designated community of June Lake, Mono County, California. The Project coordinates are 37.767302°N, 119.120286°W.

IV. Receiving Waters Information

The Project is located within the jurisdiction of the Lahontan Regional Water Quality Control Board, Victorville Office (Lahontan Water Board). Receiving waters and groundwater potentially impacted by this Project are listed in Table 1. These waters are regulated in accordance with the applicable water quality control plan (Basin Plan) for the region and other plans and policies of the California Water Boards, which may be accessed online at [the State Water Boards' Plans and Policies webpage](http://www.waterboards.ca.gov/plans_policies/) (http://www.waterboards.ca.gov/plans_policies/).

Table 1: Receiving Water Information

Impact Site ID	Waterbody Name	Impacted Aquatic Resource Type	Water Board Hydrologic Units	Receiving Waters	Receiving Waters Beneficial Uses	303(d) Listing Pollutants
Pole 24959S	Rush and Reversed Creeks	Wetland	601.00	Silver Lake	AGR, COLD, COMM, FLD, FRSH, GWR, MUN, REC1, REC2, SPWN, WILD, WQE	Not Listed
Pole 16001B1E	Rush and Reversed Creeks	Wetland	601.00	Silver Lake	Same as above	Not Listed
Pole 1600180E/ Splice Box X5765118	Rush and Reversed Creeks	Wetland	601.00	Silver Lake	Same as above	Not Listed

V. Direct Impacts to Waters of the State

Total Project fill/excavation quantities for all impacts are summarized in Table 2.

Table 2: Total Project Fill/Excavation Quantity to Wetlands

Temporary Impact ¹	Permanent Impact - Physical Loss of Area	Permanent Impact - Degradation of Ecological Condition Only
0.052 acres 89 linear feet	0.002 acres 10 linear feet	0 acres 0 linear feet

VI. Description of Indirect Impacts to Waters of the State

The State Water Board recognizes the potential for indirect impacts to waters of the state associated with the Project. Potential indirect adverse effects include but are not limited to: increased sediment loading to streams from riparian and/or upland areas used for access or staging areas, possibility of introducing invasive species into the Project areas, and changing timing of runoff delivery to streams in the Project area. The Project, as designed, will not have significant indirect impacts to waters of the state.

¹ Includes only temporary direct impacts to waters of the state and does not include upland areas of temporary disturbance which could result in a discharge to waters of the state. Temporary impacts, by definition, are restored to pre-project conditions and therefore do not include a physical loss of area or degradation of ecological condition.

VII. Water Quality Control Plan Waste Discharge Prohibitions

The Basin Plan contains waste discharge prohibitions for certain hydrologic units within its regional boundaries. The Project has the potential to discharge soil and construction waste to surface waters of the Mono hydrologic unit (Rush Creek watershed above the outlet from Grant Lake), and thus violate the discharge prohibitions for the Mono hydrologic unit, as specified in Basin Plan Chapter 4.1, Waste Discharge Prohibitions. The Lahontan Water Board may grant exemptions to the discharge prohibition for the Mono hydrologic unit, provided that the Lahontan Water Board finds that the exemption criteria specified in Chapter 4.1 of the Basin Plan are satisfied.

As stated above, discharges from the Project are prohibited under the General Order unless the Applicant requests and obtains an exemption to the applicable prohibitions from the Lahontan Water Board for the Project. General Order coverage is not valid unless accompanied by an exemption to discharge prohibitions in writing from the Lahontan Water Board.

To apply for an exemption from the Lahontan Water Board, please call (530) 542-5400 and ask to speak to the contact for the North Basin Regulatory Unit. You may also apply for an exemption through email at Lahontan@WaterBoards.ca.gov.

Information Needed for Required Exemption

Lahontan Water Board Resolution No. R6T-2015-0038 delegates to the Lahontan Water Board Executive Officer the discretionary authority to grant an exemption to Basin Plan waste discharge prohibitions when the Basin Plan exemption conditions are met. The Applicant must demonstrate to the Lahontan Water Board Executive Officer that the Project meets the conditions in the Basin Plan for granting an exemption. If an exemption is proposed to be granted, a public notice will be posted on the Lahontan Water Board website and distributed through an interested-persons mailing list, allowing at least 10 days for comments to be submitted. At the conclusion of the public comment period, the Lahontan Water Board Executive Officer will make a written determination whether to grant an exemption to the above-cited waste discharge prohibition(s).

VIII. Conditions

A. Scope of Authorization

The Project may proceed only as described in the Application submitted to the State Water Board by the Applicant and in accordance with the conditions in State Water Board General Order No. [WQ] 2020-0039-EXEC and this Notice of Applicability. This Certification and coverage under the General Order is no longer valid if the Project (as described) is modified. A copy of the General Order and its attachments can be found on the State Water Resources Control Board's [General Order Website](#)

(https://www.waterboards.ca.gov/water_issues/programs/cwa401/generalorders.html#yr_2020).

B. Avoidance and Minimization

In order to avoid and minimize impacts to waters of the state and their designated beneficial uses, the Applicant will follow the avoidance and minimization measures as proposed in their Application. Each avoidance and minimization measure demonstrates that a sequence of actions has been taken to first avoid, then to minimize, and lastly compensate for loss of or significant adverse impacts to beneficial uses of waters of the state that cannot be practicably avoided or minimized.

C. Mitigation for Permanent Impacts

- i. All temporarily affected areas will be restored to pre-construction contours and conditions upon completion of construction activities in compliance with the General Order and according to the restoration plan submitted by the Applicant in the Application.
- ii. The Applicant has provided a letter of credit in favor of the State Water Board to provide security against a default in providing the required compensatory mitigation. By January 15, 2026, the Applicant shall submit a mitigation plan to the State Water Board in accordance with section VI.G.3.e.ii of the General Order. By June 1, 2026, the applicant shall submit proof of credit purchase in accordance with section VI.G.3.e.ii.3 of the General Order.
- iii. Total required Project compensatory mitigation information for permanent physical loss of area shall be greater than or equal to the Project's permanent impact totals listed in Table 2, above, in the form of mitigation bank or in-lieu fee credit purchases in quantities consistent with the mitigation ratios provided in section VI.G.3.e.ii.2 of the General Order.

IX. California Environmental Quality Act

The State Water Board has determined that the Project is exempt from review under the California Environmental Quality Act pursuant to California Code of Regulations, title 14, section 15301. Additionally, the State Water Board finds that no exceptions to the exemptions apply to the activities approved by this Notice of Applicability.

X. Certification Fees

The Project is being implemented as part of the Applicant's Wildfire Mitigation Plan. The fee amount was determined as required by California Code of Regulations, title 23, sections 3833(b)(3) and 2200(a)(3) and falls under Category H – Wildfire Mitigation by Electrical Corporations, Electric Utilities, and Electrical Cooperatives.

XI. Public Notice

The State Water Board provided public notice of the Application pursuant to California Code of Regulations, title 23, section 3858 from February 27, 2025 to March 20, 2025. The State Water Board did not receive any comments during the comment period.

XII. Reporting and Notification Requirements

The Applicant shall submit an Annual Report each year on January 15 until a Notice of Project Complete Letter is issued to the Applicant. Notices and reporting shall be provided to the State Water Board according to section VI.E, "Application for Coverage and Termination," of the General Order.

The Applicant shall submit Report Types 2 and 3 as described in Attachment B, "Report and Notification Requirements" of the General Order. The Applicant must also submit Report Types 4 through 9 if the Project encounters the conditions described in these Report Types. The Applicant must submit all reports and information required under this Certification according to the Report Submittal Instructions found in Attachment B, "Report and Notification Requirements," of the General Order.

XIII. Water Quality Certification

I hereby issue this Notice of Applicability for the TD1967124 and TD2220216 Silver Lake Meadow, certifying that as long as all of the conditions listed in the General Order are met, any discharge from the referenced Project will comply with the applicable provisions of Clean Water Act sections 301 (Effluent Limitations), 302 (Water Quality Related Effluent Limitations), 303 (Water Quality Standards and Implementation Plans), 306 (National Standards of Performance), and 307 (Toxic and Pretreatment Effluent Standards).

As a water quality certification and enrollment under State Water Board General Order No. [WQ] 2020-0039-EXEC, this Certification and Notice of Applicability serve as waste discharge requirements pursuant to the Porter-Cologne Water Quality Control Act (Wat. Code, § 13000 et seq.). State Water Board Order No. [WQ] 2020-0039-EXEC serves as waste discharge requirements in accordance with State Water Board Water Quality General Order No. 2003-0017-DWQ. The State Water Board will file a Notice of Exemption (NOE) at the State Clearinghouse within five (5) working days of issuance of this Notice of Applicability.

Except insofar as may be modified by any preceding conditions, all Notice of Applicability actions are contingent on: (a) the discharge being limited and all proposed mitigation being completed in strict compliance with the conditions of the General Order and the attachments to the General Order; and, (b) compliance with all applicable requirements of Statewide Water Quality Control Plans, and the Regional Water Boards' Water Quality Control Plans.
