<b>Notes:</b>			
<p>*This list includes projects that may be eligible for grants or principal forgiveness available to small disadvantaged communities through the State Water Board's Clean Water State Revolving Fund (CWSRF) Program. The CWSRF application process includes a more thorough eligibility review. Only eligible applicant types (i.e. city, town, district, tribe, or other public body) meeting the population and median household income (MHI) criteria, and all other eligibility criteria for the CWSRF Program will be considered for funding. If United States Census data representative of the service area are not available, an income survey must be conducted to evaluate eligibility. Inclusion on this preliminary list does not guarantee funding. Applications are being accepted on a continuous basis, and projects are funded in ready-to-proceed order.</p>			
<p>**Since the project costs for many of the communities listed above are unknown, this is considered a conservatively low number.</p>
