

## UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

### **REGION IX**

### 75 Hawthorne Street San Francisco, CA 94105-3901

June 29, 2016

Mr. Darrin Polhemus Deputy Director Division of Financial Assistance California State Water Resources Control Board P.O. Box 944212-2120 Sacramento, CA 94244-2120

Dear Mr. Polhemus:

Enclosed is the final California Clean Water State Revolving Fund (CWSRF) Program Evaluation Report (PER) for state fiscal year 2015.

Overall this PER found no deficiencies in the management of the California CWSRF program and found the technical, managerial and financial management of the program favorable. One area was identified in this PER that should be addressed in the coming year. Further clarification can be found in the PER.

• **Fish and Wildlife Protection Act:** The California CWSRF should include this act as part of the cross-cutter review checklist that the loan recipients fill out.

On behalf of the review team, I would like to express my appreciation for the assistance you and your staff provided during the review. If you have questions about the final report, please call me at 415-972-3420 or the EPA Region 9 California program officer, Josh Amaris, at 415-972-3597.

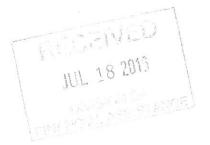

Sincerely,

Douglas E. Eberhardt

Manager, Infrastructure Section

### STATE FISCAL YEAR 2015 PROGRAM EVALUATION REPORT

## California Clean Water State Revolving Fund Program

Review Conducted February/March 2016 Final Report Prepared April 2016

### I. Introduction

Section 606(e) of the Clean Water Act (CWA) requires EPA to conduct an annual oversight review of the Clean Water State Revolving Fund (CWSRF) program. The purpose of the annual review is to assess the cumulative program effectiveness; fiscal health of the CWSRF program in California since the program began (1988); compliance with the statutes and regulations; Operating Agreement (OA); and grant conditions governing the CWSRF.

EPA Region 9 conducted its on-site annual review of the California CWSRF activities on February 1-5 and March 22-24, 2016. Staff from EPA Region 9 visited the State offices to review selected project files and cash draws, and to talk with state staff about various aspects of the CWSRF activities. Following the review, EPA prepared this Program Evaluation Report (PER). The PER covers all program activities from program inception to the present, with major emphasis on the activities performed during state fiscal year (SFY) 2015. This PER correlates to the State's CWSRF Annual Report for SFY 2015, which ended June 30, 2015. The PER also highlights the review findings and identifies follow-up actions to be addressed in SFY2017.

## II. Background and Scope

The CWSRF uses federal capitalization grants, state match funds, loan repayments, and interest earnings to make loans for construction of wastewater treatment facilities, the implementation of nonpoint source water quality control projects, and the development and implementation of estuary enhancement type projects. Since the program began in 1988 through June 30, 2015, SWRCB has closed 716 loans totaling approximately \$8.2 billion cumulatively, including ARRA.

The California CWSRF program is required to contain the following program and financial elements, which EPA assessed during its review.

- Annual Report
- Funding Eligibility
- Compliance with DBE Requirements
- Compliance with Federal Cross-Cutting Authorities
- Compliance with Environmental Review Requirements
- Operating Agreement
- Staff Capacity
- Compliance with Davis Bacon and American Iron and Steel
- Compliance with Green Project Reserve (GPR)

<sup>&</sup>lt;sup>1</sup> As of June 30, 2015, and as reported in the National Information Management System (NIMs)

## **Required Financial Elements**

- · Rules of Cash Draw
- Timely and Expeditious Use of Funds
- Compliance with Audit Requirements
- Assistance Terms
- Use of Fees
- Assessment of Financial Capability and Loan Security
- Financial Management
- Compliance with Additional Subsidy

The scope of the annual review included consideration of the legal, managerial, technical, financial and operational capabilities of the State of California (State) specifically the California State Water Resources Control Board (SWRCB), Divisions of Financial Assistance (DFA) and Administrative Services (DAS).

EPA Region 9 used the SRF Annual Review Guidance, SRF Program Review Checklist, Project File Review Checklist, Transaction Testing Checklist, and data collected in the National Information Management System (NIMS) for SRFs to ensure that all major elements of the program were reviewed and discussed with the California CWSRF management and staff. In response to the Improper Payments Elimination and Recovery Act, the Office of Management and Budget (OMB) through the EPA Office of the Chief Financial Officer (OCFO) has directed that the State Revolving Funds be subject to testing of a random selection of SRF transactions to develop a national estimate of improper payments from these programs. Therefore, for this review, 7 CWSRF cash transactions totaling \$28M were selected by OCFO and tested by EPA Regional staff.

## III. Observations and Suggested Follow-up

EPA's review assessed certain program, financial and project management practices as they relate to the State's ability to effectively administer CWSRF program activities (Attachment 1). Based on the review, EPA finds that California is managing the CWSRF program in accordance with State and federal laws and regulations and that California is in compliance with the conditions and assurances in the CWSRF Operating Agreement and grant agreements. This section presents EPA's specific observations and suggested action items, to be incorporated into the future operations or management of the program.

### A. Financial Management

### 1. Transaction Testing and Improper Payments

To comply with OMB and the Improper Payments Elimination and Recovery Act requirements to evaluate improper payments, each Region is required to perform transaction testing of separate payments for State CWSRF funded transactions annually.

EPA tested 7 CWSRF cash transactions selected by OCFO with a total draw of over \$28 million from the federal treasury between October 2014 and June 2015. Our review of these program financial transactions did not find any improper payments. The details for each cash draw tested can be found in **Attachment 2**.

Suggested follow-up: None.

## B. Timely and Expeditious Use of Funds

California's performance for the major CWSRF program financial indicators is above or within an acceptable range of the national average, as described in Table I. California also appears to be in full compliance with the CWSRF requirements for efficient, timely and expeditious expenditure of the funds. The State is maximizing the use and effectiveness of CWSRF assets.

**Table I. Performance Indicators (from NIMS)** 

Indicator	CWSRF 20	15 <sup>1</sup>	<b>CWSRF 2014</b>		
Indicator	California	National	California	National	
Fund Utilization (line 285)	116%	98%	110%	97%	
Return on Federal	224%	258%	220%	256%	
Investment (line 307)					
Retained Earnings (line 320)	22.4%	19.1%	22.1%	19.4%	

### 1. Fund Utilization

Fund utilization rate or pace of the program represents the cumulative assistance provided as a percent of cumulative SRF funds available for projects. It is one indicator of how quickly CWSRF funds are made available to finance projects. Table I shows that California has done an excellent job in quickly converting CWSRF funds to loans for projects and exceeds the national average.

## 2. Unliquidated Obligations (ULOs) - Use of Federal and Non-federal Funds

While unliquidated obligations or undrawn federal and non-federal funds are not currently a performance indicator, they are being closely tracked by the EPA, OMB and Congress who may look at the unliquidated obligations when determining next year's budget.

As of May 5, 2011, EPA has established new federal fund utilization expectations for water programs, consisting of two inter-related elements. The first element is to accelerate the pace of fund obligation with a long-term goal of obligating all federal funds during the fiscal year in which they are appropriated. The second element is to encourage and monitor the prompt and full utilization of these funds.

Table II shows the status of capitalization grants as of June 30, 2015. The SWRCB has a history of successfully obligating all federal funds during the fiscal year in which they are appropriated. As of June 30, 2015, the SWRCB had one capitalization grant open with a total of \$21 million in unspent federal funds, which is 2% of the federal funds awarded during the last 7 years, coinciding with California CWSRF grants having a 7 year grant period.

<sup>&</sup>lt;sup>1</sup> As of June 30, 2015, and as reported in the National Information Management System (NIMs)

Table II. California ULOs as of end of SFY 2014

Grant ID Fiscal (of fur		Approved Funding	Funds Paid to Date	Remaining funds/ULO	ULO (%)	
CS06000108	FY08	\$48,826,491.00	\$48,826,491.00	\$0.00	0%	
CS06000109	FY09	\$48,667,707.00	\$48,667,707.00	\$0.00	0%	
CS06000110	FY10	\$145,721,000.00	\$145,721,000.00	\$0.00	0%	
CS06000111	FY11	\$105,570,800.00	\$105,570,800.00	\$0.00	0%	
CS06000112	FY12	\$101,065,000.00	\$101,065,000.00	\$0.00	0%	
CS06000113	FY13	\$95,485,000.00	\$95,485,000.00	\$0.00	0%	
CS06000114	FY14	\$100,277,000.00	\$78,973,758.43	\$21,303,241.57	21%	
2W06000209 (ARRA)	FY09	\$280,285,800.00	\$280,285,800.00	\$0.00	0%	
Subtotal CWSRF		\$925,898,798.00	\$904,595,556.43	\$21,303,241.57	2%	

This federal ULO is exceptional, \$21 million is less than one capitalization grant. This indicates that California CWSRF is anticipating federal grant awards and awarding assistance agreements such that when federal funds become available there is an immediate demand for them.

With respect to the utilization of non-federal dollars in the program, states are required to make timely loans using all available CWSRF funds for eligible projects. As stated in EPA Policy Memoranda, SRF 99-05 and SRF 99-09, one year is a reasonable time frame for expecting states to commit repayments and other available funds to CWSRF projects. The memoranda further clarify that in the event the state does not have sufficient projects ready to receive commitments, it must identify in its Intended Use Plan how and when the funds will be used. In the case of the California CWSRF program, the NIMs report shows that SWRCB has satisfactorily committed all available program funds to CWSRF projects within a year.

Federal, recycled and other non-federal funds need to be disbursed as soon as possible to avoid the appearance of fund underutilization. The CWSRF program uses the following metrics to determine whether a state is having trouble with the timely use of their federal and non-federal funds:

- Cumulative disbursements as a percent of CWSRF assistance (Line 297). In the case of the California CWSRF, the 2015 NIMs shows a ratio of 83%, slightly below the national average of 88%
- Cumulative construction starts as a percent of CWSRF assistance (Line 299). For the California CWSRF, the 2015 NIMs shows a ratio of 90%, in step with the national average of 91%.

Although slightly below the national averages, these figures are within an acceptable range. Furthermore the sum of federal funds, cash and cash equivalents is less than one year's worth of disbursements, indicating that the California CWSRF is utilizing all sources of funds in a timely and expeditious manner.

Suggested follow-up: None.

### 3. Return on Federal Investment

Return on federal investment represents the cumulative assistance disbursed as a percentage of cumulative federal cash draws. This indicator is designed to show how many dollars of assistance were disbursed to eligible borrowers for each federal dollar spent. States with a direct loan program should have an expected value for this indicator of 120%, which reflects the 83% federal and 17% state contribution ratio for funding projects. States that leverage should have a higher value than 120% because they have more funds available relative to the amount of federal funding than non-leveraged states. In California's case, the State CWSRF has exceeded the standard level of performance, i.e., 120%. The 224% return on investment is in part attributed to availability of more funds due to leveraging, repayments and interest and investment income earned.

Suggested follow-up: None.

## 4. Sustainability (Retained Earnings) Excluding Subsidy

This indicator seeks to gauge how well the CWSRFs are maintaining their invested or contributed capital, without making adjustments for loss of purchasing power due to inflation. For purposes of this indicator only, contributed capital is defined as the federal capitalization grant less the 4 percent allowed for administrative expenses, plus the required 20 percent State match regardless of the source (i.e., borrowed, appropriated, etc.). For those States that do not borrow for State match, like California, if the amount of retained earnings of a CWSRF is greater than or equal to zero, then the CWSRF is deemed to be maintaining its contributed capital and the sustainability of the fund. The California CWSRF is exceeding the national average with a RE calculation of 22.4%, thus sustaining the financial health of the fund.

Suggested follow-up: None.

### C. Project File Review

EPA project file review found the projects to be eligible and in compliance with the program requirements. No major issues were identified during the file reviews but one minor issue was identified in the review of both project files. The State is implementing or reinforcing procedures to ensure compliance. The Project File Reviews for each of the below listed projects can be found in **Attachment 3**:

### **Projects**

- (1) Farmersville (\$8.9M)
- (2) Los Carneros (\$19.9M)

As part of the state environmental review process the Fish and Wildlife Protection Act must be considered. The requirement to adhere to the act is included in the loan documents, however it is not included in the cross-cutter review checklist that the loan recipients fill out.

**Suggested follow-up:** To ensure this requirement is met for all projects, the California CWSRF should include the Fish and Wildlife Preservation Act on the cross-cutter review checklist that loan recipients must fill out.

## D. Sustainability and Climate Change Resiliency

Financing sustainability and climate change resiliency projects continues to be a priority for EPA. We acknowledge and commend the California CWSRF for committing to finance \$960M of water recycling projects at a reduced interest rate. California is in severe drought and recycling water is a very appropriate way to create a "new" source of water for appropriate uses. We continue to encourage this type of leadership in decision making and look forward to discussing with the California CWSRF other financing opportunities.

## E. Follow up from Prior PER

## **Environmental Review: Required Mitigation Measures**

The City of Delano, a project completed in 2011, did not implement several of the required mitigation measures stipulated in its environmental review. Compounding the issue was that one of the main requirements not met was the requirement to report quarterly on the status of required mitigation measures. Due to the extensive time lag from project completion till the failure to comply with reporting requirements came to light, it is not feasible to identify if any take or harassment of species due to the un-met mitigation measures occurred or to address any resulting impacts. This was a finding in the SFY2014 PER to which EPA made the following recommendation.

Suggested follow-up (SFY2014): To prevent this from happening in the future and help ensure that all recipients understand the gravity of complying with required mitigation measure and adhere to them, the California CWSRF needs to have a robust and tangible system for monitoring compliance with the State Environmental Review Process (SERP) and required mitigation measures and the tools necessary to ensure all recipients maintain compliance with the SERP and required mitigation measures. EPA suggests the following. The California CWSRF should develop and implement a standard process for evaluating whether recipients are complying with required mitigation measures (Example: at 20% and 50% project complete). Furthermore, EPA suggests that the California CWSRF develop an escalating suite of options to penalize recipients not complying. These should be codified in the loan conditions. Potential options could include but are not limited to:

- (1) Written warning of failure to comply with required mitigation measures and steps to correct
- (2) Withholding payments
- (3) Heightened level of oversight and scrutiny in the form of extra onsite visits or desk reviews
- (4) Require the recipient to purchase "mitigation credits"
- (5) Increase of the loan interest rate
- (6) Termination of loan agreement

**Current Assessment:** EPA acknowledges that the California CWSRF has taken the recommendations. Procedures to monitor loan recipients compliance with Required Mitigation and Monitoring Plans have been implemented and the tools to compel recipients to comply with said plans are written into the loan agreements.

Suggested follow-up: None.

### V. Conclusion

We have conducted an annual review of the California Clean Water SRF Program activities in accordance with EPA's SRF Annual Review Guidance. Based upon the program review, on-site file reviews and interviews, EPA concludes that the State of California has administered the program in general compliance with the capitalization grant agreements.

While this review found no deficiencies in SWRCB's grant management system, the PER Section III identified the following actions to be addressed in the SFY2015 Annual Report:

• Fish and Wildlife Protection Act – The California CWSRF should include this act as part of the cross-cutter review checklist that the loan recipients fill out.

### VI. Attachments

Attachment 1 CWSRF "Program Review Checklist for Base and ARRA SRF Activities"

Attachment 2 CWSRF Transaction Testing Sheets

Attachment 3 CWSRF Project Files Reviews Checklists

CWSRF "Program Review Checklist for Base and ARRA SRF Activities" Attachment 1

### APPENDIX B

### Annual Review Checklist

### **Use of these Checklists**

The checklists that follow are designed to provide a convenient method for ensuring that the annual review has addressed all of the major review elements.

The checklists are organized by topic for easy reference and do not represent a suggested order for conducting the review. For example, project file reviews may touch on many different annual review topics and the checklists provide a mechanism to quickly locate the topic and record the findings while moving from one topic to another. Once the review is completed, all of the topics must either be specifically addressed or noted as not being covered during this review. If an area was not reviewed, note the reason for not reviewing it and any future review activities.

For the items that are reviewed, the requested information on the checklist must be completed noting your findings. Pertinent attachments should be added to the checklists and referred to as is appropriate. The checklists must be used as your work papers for the overall evaluation and a reference document in the future to prepare for the next annual review.

It should be noted that the checklist topics are references and are not intended to be comprehensive statements of each program item. Other supporting documents, such as the Annual Review Guidance, program documents provided in the SRF Document Library, the SRF Audit Compliance Supplement, the EPA SRF Financial Planning Model, and many other SRF related information and tools should be utilized to delve in depth into specific review topics.

Some questions in the checklists pertain to State activities that may not change from year to year. For the FY16 review cycle, all of these questions must be completed with detailed answers. Once the reviewer has a good understanding of the State's process, in subsequent reviews the reviewer may rephrase these questions to ask "Have there been any updates or changes to [the review topic]? If no updates or changes have occurred, the reviewer should complete the checklist item using knowledge gained from past reviews and discussions with the State. Reviewers must complete every question on the checklist, but should use their best judgement to rephrase questions as necessary to make the discussion relevant and useful.

The questions on the checklist have been phrased so that any checkbox in the "No" column indicates an item that requires follow-up from the Region and potential inclusion in the PER. This is done so that the reviewer may quickly scan the checklist to identify potential problem areas. Some questions on the checklist are phrased as Yes/No questions, but a "No" response does not necessarily indicate a problem or require follow-up. For these questions, the Yes/No/N/A checkboxes are grayed out as an indication that a "No" response does not indicate a problem or require follow-up. An example is question 1.1.1 in the Advance Preparation tab ("Does the State use equivalency procedures for certain Federal requirements (FFATA, DBE, crosscutters, signage, A&E procurement [CW only])?"). A "No" answer does not necessarily indicate a problem; therefore, the checkbox is grayed out.

### ADVANCE PREPARATION

State	State / Program / Review Year:			Reviewer's Name:						
	Review Item and Questions to Answer	Yes	No	N/A	Notes					
1.6	Compliance with Environmental Review Requirements Sources: CWSRF Regulations, 40 C.F.R. §35.3140; NEPA Regulations 40 C.F.R. Part 6									
1	Has the Project Officer received a current copy of the State's environmental review process and compared processes described in the SERP to other state program documents and past Annual Review materials, and through discussions with the State, to be able to determine that the State is following the SERP during project file review?	Yes		8	Currently revising the SERP					
2	Does the SERP provide an accurate and complete summary of the State's process and documentation requirements for issuing the following:									
	a. Categorical Exclusion (CE) or the State equivalent?	Yes			Yes When completed					
	b. Environmental Assessment (EA)/Findings of No Significant Impact (FONSI) or the state equivalent? c. Environmental Impact Statement (EIS)/Records of Decisions (ROD) or the	Yes	_		Yes When completed					
	State equivalent?	Yes			Yes When completed					
	d. How does the State ensure that public notices and meetings, as required by the SERP, are provided during the environmental review process?		•		State clearinghouse notice of determinations. If the community holds public meetings these will often be documented in the files but the state meets the requirement by the Clearinghouse process.					
1.7 1 2	Short and Long-Term Goals What is the State's progress toward achieving the short and long-term goals listed in the IUP for the review year? Briefly summarize.  Does the reviewer think that this progress has been adequate? Indicate any major areas of concern in the notes as necessary.	Yes	<b>→</b>		Annual report talks to each of the short and long term goals specifically.					
<b>1.8</b>	Reporting Source: EPA FY12 SRF Procedures, EPA Grant Terms and Conditions Has the State entered data for all projects in the Annual Report into the CBR/PBR database?									
	a. Are the records complete, to the extent possible?	Yes			Annual report indicates all projects are entered					
	b. Are projects being entered in CBR/PBR within the end of the quarter in which the loan is signed?	Yes	_							
2.1	Assistance Terms Sources: Final WRRDA Guidance of January 6, 2015, most recent SRF			and the second second						
1	Does the program offer 30-year financing?	Yes								
2	What are the criteria for providing additional subsidy?		<b>→</b>		DACs					
3	Are assistance terms based on the useful life of the project [CW only]?	Yes								
4	Is the amount and type of additional subsidy provided by the State consistent with the additional subsidy requirement for the year under review? (Record type and amount in the Notes column)	Yes			Annual report breaks out on a a yearly basis the requirements and how the State Board met them					

#### ADVANCE PREPARATION

ate / Program / Review Year:			Reviewer's Name:					
	Review Item and Questions to Answer	Yes	No	N/A	Notes			
2.2	Use of Fees Sources: Final WRRDA Guidance of January 6, 2015, 40 CFR Part 35 Guidance on Fees Charged by States to Recipients of Clean Water State Revolving Fund Program Assistance	St			T			
1	If the State assesses fees on assistance, note the fee rate charged and on what basis (e.g., percentage of closing amount, principal outstanding, principal repaid, etc.) in the Notes column (if the State does not assess fees, note "N/A" in the Notes column)		-		Percentage of principal outstanding			
	a. Describe how fee income is used by the program. For each use, indicate whether the fee income is program or non-program income.				Small Disadvantaged community by way of the SCG or small communities grant fund			
2	What are the State's procedures for accounting and reporting fee use?				annual report clarifies how fee's were asessed (Exhibit G) and then used (exhibit H)			
2.3	State Match (Sources: 40 CFR Part 35: State Revolving Fund Implementation Regulations, EPA Standard Operating Procedure 2.3: Reviewing Use of Bonds for State Match and Leveraging)							
1	What is the state's source of match?  a. If this is a different source than the state has used in the past, briefly describe any changes		<b>→</b>		local match NA			
2	If bonds are issued for state match, and the SRF is used to retire these bonds, do the bond documents clearly state what funds are being used for debt service and security?	Yes						
	<ul> <li>a. Has the State's current match bond structure been approved by EPA Headquarters?</li> </ul>	Yes						
2.4	Timely and Expeditious Use of Funds Sources: 40 CFR §35.3135(d), SRF-99-05, SRF-99-09				This is a non issue: leveraged program thus demand is very high.			
1	Review the State's balance of uncommitted funds for the SFY under review, using NIMS or the annual report. Compare it to at least the last two years. Is the State's position strong or improving?			NA	Illis is a non issue, leveraged program thus demand is very high.			
2	Review the State's balance of unliquidated federal funds for the current year, using Compass Data Warehouse. Compare it to at least the last two years. Is the State's position strong or improving?			NA	Improving			
3	After completing the above trend analysis, is the State using its funds, from all sources, in a timely and expeditious manner?	Yes						
4	[DW Only] In reviewing the IUP, Annual Report and other financial data do you conclude:  a. The state DWSRF is committing and spending all funds as efficiently as							
	possible and in a timely and expeditious manner. If not, what specific issues do you identify?			NA				
	<ul> <li>b. The state DWSRF expeditiously commits available funds to ready to proceed projects. If not, what specific issues do you identify?</li> </ul>	_	_	NA				
	<ul> <li>These projects move to construction in an efficient and timely manner. If not, what specific issues do you identify?</li> </ul>		_	NA				
	d. Construction is completed and project funds are disbursed in an efficient, timely and expeditious manner. If not, what specific issues do you identify?		_	NA				

#### ADVANCE PREPARATION

State	/ Program / Review Year:	Revie	wer's	Name:	
	Review Item and Questions to Answer	Yes	No	N/A	Notes
	e. Are there any uncommitted fund balances? If so, what are these balances and what is the reason they remain uncommitted? Are the issues captured in the HQ state policy matrix?			NA	
	f. Is the state making progress, as necessary, to comply with the DWSRF ULO reduction strategy? If not, what specific issues do you identify?			NA	
5	[DW Only] Review the State's balance of non-federal cash or cash equivalents for the current year, using the annual financial statement audit or deriving from NIMS data. Compare it to at least the last two years. Is the State's position strong or improving?			NA	
2.5	Financial Management Source: CWSRF Financial Risks: Program Objectives, Risk Analysis and Useful Tools (2013)				
1	Have all cumulative NIMS "Fund Analysis" indicators for the State shown good or improving performance in recent years, as compared to the national averages?				Trends are good and imrpoving.
2	What are the State's leveraging activities described in the IUP, Annual Report and bond documents (such as ratio, frequency, amount, use of funds, impact on interest rates, etc)? (N/A if the state does not leverage) Briefly summarize.		<b>→</b>		No new Leveraging activity in the prior year
2.6	Compliance with Audit Requirements Source: 40 CFR §35.3165 Note: All questions apply to the independent audit and Single Audit Are annual independent audits being conducted by an independent auditor, in				
	addition to the State Single Audit?  a. Who conducted the most recent audits? Note date of most recent audits in Notes column.		<b>→</b>		Clifton Larson Allen September 30, 2015
	b. Did the program receive an unqualified opinion in one or both audits? If a qualified opinion was given, note the reason(s) in the Notes column	E184545	No	20100000	
	c. Were the audits clear of findings? If no, describe the findings and resolutions in the Notes section and follow up as necessary onsite.				Recipients of federal awards in excess of \$500,000 are required to file a Data Collection Form with the Federal Audit Clearinghouse within one month of the issuance of their single audit and no later than 9 months after the end of the fiscal year. This requirement was not met in 2012, 2013, and 2014 as the state altered its audit reporting process and failed to notify the State Board of the change. The State Board has taken actions to come into compliance with this reporting requirement and all past due reports have been submitted
	d. Are the financial statements in conformance with GAAP?	_	No		
2	Were the audits free of any negative comments or issues regarding the State's SRF internal control structure? If no, list any problem areas identified.  a. Were the audits clean from any improper payments/cash draws/disbursements? If no and improper payments were identified, what was	yes yes	_		
	the reason and amount of the improper payment?	yes			

#### ADVANCE PREPARATION

State / Program / Review Year:		Revie	wer's	Name:	
	Review Item and Questions to Answer	Yes	No	N/A	Notes
3	Is the most recent audit free of any repeat findings (from previous audits)?	yes			
4	Did the most recent audits find state cash management and investment practices consistent with State law, policies, and any applicable bond requirements?	yes	_		
2.7	Cash Draws & Transaction Testing Sources: 40 CFR §35.3155(d)(5), SRF 13-04				
1	As stated in the IUP, what proportionality ratio is the State using for cash draws?		<b>→</b>		100% federal draw
	a. Is this the appropriate/correct ratio based on EPA memo SRF 13-04?	Yes	_		
2.8	[DW Only] DWSRF Withholding Determinations				
1	Did the Regional Capacity Development and Operator Certification Coordinators review the state's ongoing implementation of these programs?			NA	
2	Is there a memo in the file (or other notation of record) documenting that EPA has determined that the state is implementing its capacity development strategy and no withholding will be necessary?			NA	
3	Is there a memo in the file (or other notation of record) documenting that EPA has determined that the state is implementing its operator certification strategy and no withholding will be necessary?			NA NA	
	and no withholding will be necessary:			1414

tate / Program / Review Year:	Reviewer's Name:					
Review Item and Questions to Answer	Yes	No	N/A	Onsite Discussion Summary		
Assistance Terms  Sources: Final WRRDA Guidance of January 6, 2015, most recent SRF appropriations act						
What is the State's process for evaluating the project's useful life for the purposes of setting the loan term?				During the Technical review they ask for and evaluate the useful life		
How does the State periodically evaluate terms of assistance offered relative to the supply and demand for funds and the Fund's long-term financial health?		<b>→</b>		Bi-monthly finance meetings: review the cash flows of the fund with respect to supply/demand.		
How does the State make decisions about allocating additional subsidy (i.e., whether to allocate based on affordability or other reasons, what affordability criteria to use, etc.)?				Affordability and DACs		
a. If the State is providing subsidy in the form of grant funds, do assistance agreements require compliance with EPA regulation 40 CFR Part 31?			NA	Principal forgiveness		
Use of Fees  Sources: Final WRRDA Guidance of January 6, 2015, 40 CFR Part 35 Guidance on Fees Charged by States to Recipients of Clean Water State Revolving Fund Program Assistance						
Discuss with the State its overall position regarding its fee structure, especially in regards to the following:						
a. Is the annual fee income adequate for the State's administrative expenses and other intended uses?	Yes			Admin is covered by the 4% allowance and Fees are collected to operate the Small Communities Grant fund.		
b. Are there policies or procedures in place to prevent a large balance being accumulated in the fee account with no intended purpose?	Yes			the state reports out the sources and uses of fees in the annual report		
c. How often does the State re-consider its fee rate?		→		On an annual basis and established in the IUP		
State Match .3 Sources: 40 CFR Part 35: State Revolving Fund Implementation Regulations, SRF 13-04						
Is the State's source of match sufficient to provide the 20% match now and into the foreseeable future?	Yes			Currently \$126M over matched against the federal funds drawn		
a. If no, what steps is the state taking to address this? Discuss onsite and on the PER.  For those grants fully drawn during the year under review, do the State's accounting records indicate that the required match has been deposited and disbursed as required?	Yes	<b>→</b>		NA Currently \$126M over matched against the federal funds drawn		
.4 Timely and Expeditious Use of Funds Sources: 40 CFR §35.3135(d), SRF-99-05, SRF-99-09						
If the State needs to improve its use of funds to ensure timely and expeditious use of funds available from all sources, what is the State's plan to do so?		>		Federal funds plus all cash and Cash equivalents on hand < 1years worth of loan disbursements		
a. If the state was required to develop a plan demonstrating timely and expeditious use of funds, what progress is being made on meeting this plan?			NA			

### **Required Financial Elements**

Sta	State / Program / Review Year: Review		wer's N	lame:	
	Review Item and Questions to Answer	Yes	No	N/A	Onsite Discussion Summary
2	[DW ONLY] Has the state incorporated EPA's definition of "ready to proceed" as it applies to projects for planning and design or construction into the development of its fundable list and, if not, what steps are being taken to do so, including providing funding for planning and design to get projects ready for construction?*			NA	
	* EPA defines the status of "ready to proceed" in the DWSRF ULO Strategy as being prepared to begin construction and are immediately ready, or poised to be ready, to enter into an assistance agreement. See also the December 22, 2014 memo titled "Drinking Water State Revolving Fund Program Guidance on Unliquidated Obligations Reduction Applying Project Readiness to Proceed, and Data Completeness for Project and Benefits Reporting System (PBR).				
	Financial Management

EPA's Clean Water and Drinking Water Infrastructure Sustainability Policy: Discussion Questions

Reviewer's Name:

tat	e / Program / Review Year:	Reviewer's Name:						
	Review Item and Question to Answer	Yes	No	N/A	Onsite Discussion Summary			
or o	additional information and guidance on these topics, please refer to the SRF Sustainabili	ty and C	limate	Change	Guide			
4.1	Sustainability							
	How does the State encourage the use of asset management programs? Does the							
1	State's Project Priority List (PPL) include projects that emerged as a result of an asset management program?				extra prioritization points if the entity conducts Asset managemen plans: general application form sustainability section			
2	How does the State encourage planning processes by potential SRF recipients that:							
	a. include steps to consider other relevant community sustainability priorities from other sectors, such as transportation and housing?		<b>→</b>		extra prioritization points: general application form sustainability section			
	b. evaluate a range of alternatives, including green and/or decentralized (for CW) or restructuring (for DW) alternatives, based on full life-cycle costs?				extra prioritization points : general application form sustainability section			
	c. ensure that potential recipients have a financial system in place, including appropriate rates, to ensure that future projects will be funded, operated, maintained and replaced over time, with appropriate considerations for low income households?				The Financial review in thet application process looks at funding sustainibility for future CIP and O&M.			
3	Does the State's project pipeline include projects that utilize green infrastructure or decentralized approaches as an integral part of the treatment process? Describe any activities that the State uses to encourage these types of projects.		No		Water Recycling			
	(DW only) Does the State's project pipeline include projects that utilize consolidation,			-				
4	partnership or regionalization approaches? Describe any activities that the State uses to encourage these types of projects.			NA				
5	Does the project pipeline include projects that maintain or create additional green space? Examples could include riparian buffer zones or conservation easements.			NA	extra prioritization points : general application form sustainability			
1000	Describe any activities the State uses to encourage these types of projects.			11/1	section			
	Does the project pipeline include projects that make use of technologies and practices	-						
6	to reduce energy and/or water consumption, and use energy in a more efficient way, and/or produce/utilize renewable energy? Describe any activities the State uses to encourage these types of projects.	Yes			Water recycling, VFD,			

## Annual Review Checklist Sustainability Section

#### 4.2 Resiliancy to Extreme Events and Climate Change 1. Is there a state climate change or adaptation plan? In SFY 2017, the is a plan to develop a resolution for the SWRCB that will establish a strategy for all SWRCB programs to address climate Υ change and adaptation. The SWRCB SRFs are working on a 1 worksheet, to be completed by the SRF applicant, that will indicate climate change factors considered when applying for SRF funding. All state programs including the SRFs a. If so, does it include a role for water infrastructure or the SRF's? Policy includes description of eligible costs including green. Does the SRF program provide information about eligible costs related to developing or adaptation, etc. implementing an adaptation plan in the IUP or other program information? Does the SRF program provide incentives to encourage facilities to incorporate potential climate change impacts or strategies for building resilience to extreme events CWSRF - extra priority points for water recycling & energy in new or revised facilities plans? Extreme events may include Intense precipitation conservation and flood, increasing temperatures and drought, or sea level rise, increasing intensity of a. What incentives does the SRF program provide? If financial incentives, please be Financial (1% interest loans); extra pp points; or PF specific as to what those entail. Does the state have plans in place for rebuilding water (and other) infrastructure after Plan to work with entity to ensure long-term sustainable 4 damage from an extreme event, in ways that decrease vulnerability and increase infrastructure resilience to future extremes? Are the state SRF program staff aware of sources of information to help you 5 understand and plan for future resiliency, e.g., EPA's Climate Ready Water Utilities tools and information? (available at http://water.epa.gov/scitech/climatechange/)

CWSRF Project Files Reviews Checklists

State: California

tate: California roject or Borrower: City of Farmersville			Equivalency Project: (Yes/No) No Treatment Works Project: (Yes/No) yes						
300	Required Program Elem	-							
			22						
-	Review Item and Question to Answer	Yes	No	N/A	Comments				
	Funding Eligibility								
1	The project is listed on the State's Project Priority List (N/A for CWSRF projects that are not 212 projects)  The assistance recipient and project are eligible for SRF assistance (briefly describe the project and assistance recipient	Yes		-					
2	in the Comments section)	Yes			WDR order Number: 86-152, Upgrade and expansion of WWTP originally construction				
3	Project file contains documentation showing that the useful life of the project is at least as long as the loan term	Yes			Master File Binder Tab 2b pg 9, useful life atleast 30 years				
1.2	Green Project Reserve (GPR)								
1	[CW Only] Project file indicates that any portion of the project designated to receive GPR funding is either:								
	a. Categorically qualified for the GPR			NA	Not Listed as a Green project though there are aspects of the project like VFD's which very likely are green. Not reported as the threshold was met through other projects.				
	b. Supported as GPR eligible by a State-approved business case posted on the State website			NA	other projects.				
2	[DW Only] Project file indicates that any portion of the project is designated as a GPR project		_	NA					
1.3 1	State Environmental Review (For CWSRF, this section should be completed for treatment works projects only) Project File includes the following (Note: may be included in the Preliminary Engineering Report or Facilities Plan):								
	a. Discussion of required mitigation measures	Yes			Master File Tab 3B Mitigation/monitoring plan				
	b. Analysis of other sites and/or other projects considered	Yes			Master File Tab 2B Page 7 ellaborates on the alternatives considered				
	c. Environmental Information Document (EID) from the assistance recipient d. The state's decision memo documenting one of the following:	Yes			Master File Tab 3B				
	Decision to classify the project as a Categorical Exclusion (CE or CatEx)		No						
	Decision to grant a Finding of No Significant Impact (FNSI or FONSI)	Yes			IS/MND				
	Decision to require an Environmental Impact Statement (EIS) (Note: if required, confirm that the EIS is in the project e. Evidence of public notification, as required:		No						
	State environmental decision memo received public notification or an announcement was distributed to a list of interested parties and agencies, as specified in the SERP	Yes			Clearinghouse tracking number 2012101041				
	The state addressed all comments	Yes							
2	Documentation of a State determination of "no potential effect", OR concurrence from the agency responsible for administering the law, for each of the laws listed below:								
	a. Archeological and Historic Preservation Act	Yes		-	Tab 3B				
	d. National Historic Preservation Act	Yes			Tab 3B				
	b. Endangered Species Act	Yes			Tab 3B				
	c. Magnuson-Stevens Fishery Conservation and Management Act (essential fish habitat)	Yes			Tab 3B				
	e. Wild and Scenic Rivers Act	Yes			Tab 3B				
	f. Coastal Zone Management and Coastal Barriers Resources Act	Yes			Tab 3B				
	g. Farmland Protection Policy Act	Yes			Tab 3B				
	h. Wetland Protection (Executive Order 11990)	Yes			Tab 3B				
	i. Floodplain Management (Executive Order 11988)	Yes			Tab 3B				
	j. Clean Air Act	Yes			Tab 3B				
	k. Sole-source Aquifers (Safe Drinking Water Act)	Yes			Tab 3B				
	I. Protection and Enhancement of the Cultural Environment	Yes			Tab 3B				
	m. Fish and Wildlife Coordination Act		No		This requirement is in the Loan Doc but not on the ENV review checklist				
	n. Migratory Bird Treaty Act	Yes			Tab 3B				

tate: roject or Borrower:		Equivalency Project: (Yes/No) Treatment Works Project: (Yes/No)						
	Required Technical E	lements	- 1	1000				
	Review Item and Question to Answer	Yes I	No I	N/A	Comments			
2.1	Bid, Procurement, and Construction Contracts The project file contains the following:							
1	Request for proposals or bid announcement		1	NA	Not out to bid yet, will be bid once value engineering is complete			
2	Bid specifications OR construction contracts OR documentation that these items were reviewed by the State			NA				
3	Bid specifications and/or construction contracts contain the following:							
	a. Equal Employment Opportunity requirements (Executive Order 11246)			NA		-		
	b. Suspension and Debarment prohibitions (Executive Order 12549)			NA				
	c. EPA Davis-Bacon grant term and condition (for CWSRF projects, Davis-Bacon applies to treatment works only)			NA				
	d. The correct Davis-Bacon wage determination(s)			NA				
	e. American Iron and Steel requirements	—-	!	NA				
<b>2.2</b>	Certifications and Reporting  The project file includes the following:  Certifications of Davis-Bacon Compliance covering the construction period to date, indicating specific weekly payrolls reviewed (note: this is							
1776	frequently submitted with disbursement requests )		1	NA	No construction to date			
2	Cost & Effectiveness analysis or certification (N/A for nongovernmental entities)		— ī	NA	Projects application predate requirements			
3	[CW Only] Fiscal Sustainability Plan (FSP) or certification that an FSP will be developed and implemented (required only for projects to repair,			NA				
2000	replace or expand a POTW; N/A for bond purchase agreements )	<del></del>		_	Projects application predate requirements			
4	[CW Only] Project information has been entered into the CWSRF Benefits Reporting (CBR) database	Yes		_				
5	[DW Only] Project information has been entered into the DWSRF Project and Benefits Reporting (PBR) database (including PWSID, project start date and project completion date)			NA				
23	State Inspections							
1	Does the State perform construction inspections?							
	a. If so, when are inspections performed (e.g., monthly, quarterly, final)?			NA	Martin will go out to this project after construction starts			
2	Inspection reports indicate project is in compliance with:	9						
	a. Davis-Bacon requirements			NA	No construction yet			
	b. American Iron and Steel requirements			NA	No construction yet	2-00		
	c. Green Project Reserve eligibility (when applicable)			NA	No construction yet			
3	All issues and concerns identified in inspection reports were adequately resolved		!	NA	No construction yet			
	American Iron and Steel Compliance Project file includes applicable American Iron and Steel documentation: a. Documentation from the assistance recipient on utilization of the American Iron and Steel de minimis waiver, if applicable			NA	No construction yet			
	b. For projects covered by an American Iron and Steel national waiver, documentation of qualifications for that waiver		_	NA	The Constitution yet			
	c. For projects that have received a project-specific American Iron and Steel waiver, documentation of compliance with the requirements of			-				
	the waiver (may be included in inspection reports)		_ '	NA —				
2.5	Equivalency Requirements (This section should be completed for equivalency projects only*)							
	The project file includes the following:  Certification from the assistance recipient confirming that A/E contracts were procured in accordance with 40 CFR 1101 et seq [CW Only]							
1	OR documentation showing that an equivalent State requirement was followed (N/A if A/E costs were not included in the SRF assistance			NA	Not an equivalency project for A/E			
2	The assistance recipient submitted a Single Audit report [N/A if assistance recipient has not expended more than \$750,000 in Federal funds from all sources in the fiscal year]	Yes			Standard Operating procedure			
	a. The state ensured that the assistance recipient addressed findings and resolved any issues identified in a Single Audit Report	Yes		_	Standard Operating procedure			
3	Project is included in the list of equivalency projects in the State's Annual Report			NA		_		

\*The requirements in this section apply to projects in an amount equal to the Federal capitalization grant. Some States choose to apply these requirements only to projects in an amount equal to the cap grant ("equivalency projects"), whereas other States apply the requirements to all SRF projects. If the State is applying the requirements to all SRF projects, the reviewer must complete this section for all projects undergoing file review. If the State is only applying the requirements to projects in an amount equal to the capitalization grant, this section must only be completed for one equivalency project, as selected by the reviewer.

		Equivalency Project: (Yes/No)							
oje	ct or Borrower:	Treat	ment \	Works	Project: (Yes/No)				
	Required Financial	Elemer	nts						
	Review Item and Question to Answer	Yes	No	N/A	Comments				
3.1	Financial Review								
1	[CW Only] File includes documentation that the applicant underwent a financial capability review [may be N/A for projects receiving 100% principal forgiveness or grant]	Yes							
	The financial capability review requires the applicant to identify a dedicated source of revenue for repayment (or for private applicants, ensures adequate security to assure repayment)	Yes			Yes, rate increase				
2	[DW Only] File includes documentation that applicant has TMF capacity, as required under SDWA	_	_	NA					
3.2	Loan or Bond Purchase Agreement								
1	The loan agreement or bond purchase document:								
	a. Is signed by the state and assistance recipient (record date in comments)	Yes			7/16/14 by city and 7/31/14 by the board				
	b. Includes a budget and/or description of eligible costs	Yes			Exhibit B				
	c. Includes the interest rate	Yes			Exhibit B				
	d. Includes the fee rate (if applicable)	Yes			Exhibit B				
	e. Includes an amortization schedule or includes the repayment period and the date when repayments must begin [N/A for projects receiving 100% grant or principal forgiveness]	Yes			Exhibit C				
	f. Requires the assistance recipient to maintain project accounts in accordance with Generally Accepted Accounting Principals (GAAP), including GAAP requirements relating to the reporting of infrastructure assets (N/A for nongovernmental entities)	Yes			pg 5 of loan also pg 15				
2	[CW Only] If the project is receiving additional subsidy, the borrower is a municipal, intermunicipal, state or interstate agency	Yes							
3	Principal repayments start within one year of project completion and end within the useful life of the project	Yes		-					
4	Does the loan or bond purchase document require the assistance recipient to comply with the following:								
	a. Davis-Bacon	Yes			Exhibit E and G				
	b. Equal Employment Opportunity requirements (Executive Order 11246)	Yes			Exhibit E				
	c. Civil Rights Act of 1964	Yes			Exhibit E				
	d. Section 504 of the Rehabilitation Act of 1973	Yes			Exhibit E				
	e. American Iron and Steel	Yes			Exhibit D
