

How to Guide: Accessing Information on Well Stimulation Related Groundwater Monitoring Plans and Requests for Exclusion

The information can be accessed at <http://geotracker.waterboards.ca.gov/>, by several methods. Here are two examples:

1. Search Using the Map Tool: Start by entering the address or site name

The screenshot displays the GeoTracker website interface. At the top left is the logo for the State Water Resources Control Board (SWRCB) and the text "STATE WATER RESOURCES CONTROL BOARD" and "GEOTRACKER". To the right of the logo is a link "Skip to: Content | Fog". Below the logo is a navigation bar with links for "GeoTracker Home", "Tools", "Reports", "Information", and "SWRCB Home".

On the left side, there are three main sections: "TOOLS", "REPORTS", and "INFORMATION". Each section has a list of links with arrows pointing to the right.

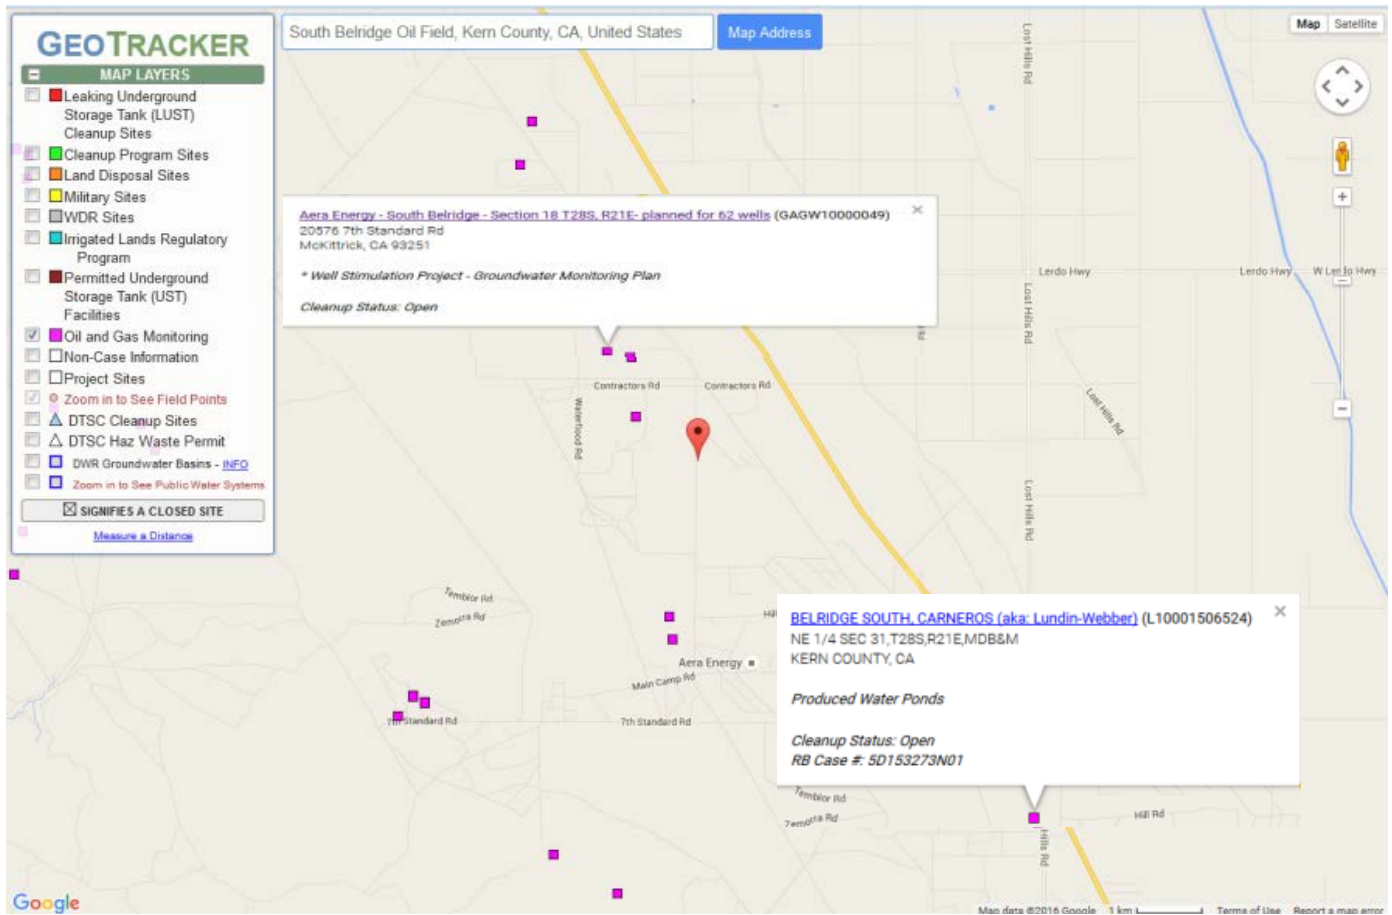

The main content area is titled "Welcome to GeoTracker" with the subtitle "Your link to environmental data for regulated facilities in California". Below this is a section titled "MAP LOCATION OF INTEREST" which contains a search input field. A red arrow points to the input field, which contains the text "South Belridge oil Field". Above the input field is a small example text "e.g., '10 market st, san francisco, ca' - INFO". To the right of the input field is a "Search" button. Below the search input field is a note: "TO SEARCH FOR SPECIFIC CLEANUP SITES, USE THE [ADVANCED SEARCH TOOL](#)".

Below the search section is a "REPORTS" section with a list of links:

- [Cases with Well Destruction Directive](#)
- [Cleanup Sites By County](#)
- [Cleanup Sites By DWR Groundwater Sub-Basin](#)
