1. **Annual Report**

a. Executive Summary

The Compton Creek Mosquito Abatement District (hereafter, the District) complied with the applicable components of the General NPDES Permit for Biological and Residual Pesticide Discharges from Vector Control Applications (General Permit). The District is a member of the MVCAC NPDES Permit Coalition and the Coalition's monitoring will be included in the Coalition Annual Report that will be sent separately to the SWRCB and Regional Boards.

The District made no treatments of larvicides or adulticides, to, over or near any waters of the U.S. The District complied with the instructions on the labels of the pesticides and continued to follow the guidelines of its Pesticide Application Plan (PAP).

b. Summary of Monitoring Data

The District performed no visual monitoring during the year, thus no Summary Report is provided.

c. Identification of Current BMP's

The District uses the BMP's outlined in the District's PAP. These include: training employees to prevent and respond to spills; keeping pesticides in secure locations: calibrate spray equipment: checking the accuracy of use on a daily basis; maintaining State Certification of staff as Certified Public Health Vector Control Technicians; and the use of biological and physical control methods to control mosquitoes when appropriate.

d. Violation Discussion

No violations of the General Permit by the District were observed.
