Application 3648.

Application 3648 was filed by the Waterford Irrigation District on September 24, 1923. Under the application it is proposed to divert 100 cubic feet per second from the Tuolumne River between March 1st and October 31st for agricultural purposes. The diversion point is from the La Grange Dam and the water is to be carried through the existing canal of the Modesto Irrigation District for use upon the lands of the Waterford Irrigation District comprising approximately 14,110 acres.

The application specifies the water to be appropriated as that "wasted and to be wasted over and above the normal flow from the storage reservoirs
