ORDER CANCELING APPLICATION

BY BOARD MEMBER AUER:

Application 12342 was filed February 20, 1948. The applicant has been delaying action on Application 12342 until the U. S. Bureau of Reclamation develops final plans for a major water storage project on the Cosumnes River, when the applicant will determine the impact of the project on Application 12342 (transcript of hearing on Application 12342 et seq. April 15, 1960, RT 13, 14).

On June 21, 1974, a hearing was held to afford the applicant an opportunity to show cause why Application 12342 should not be canceled pursuant to Board Regulation 776.

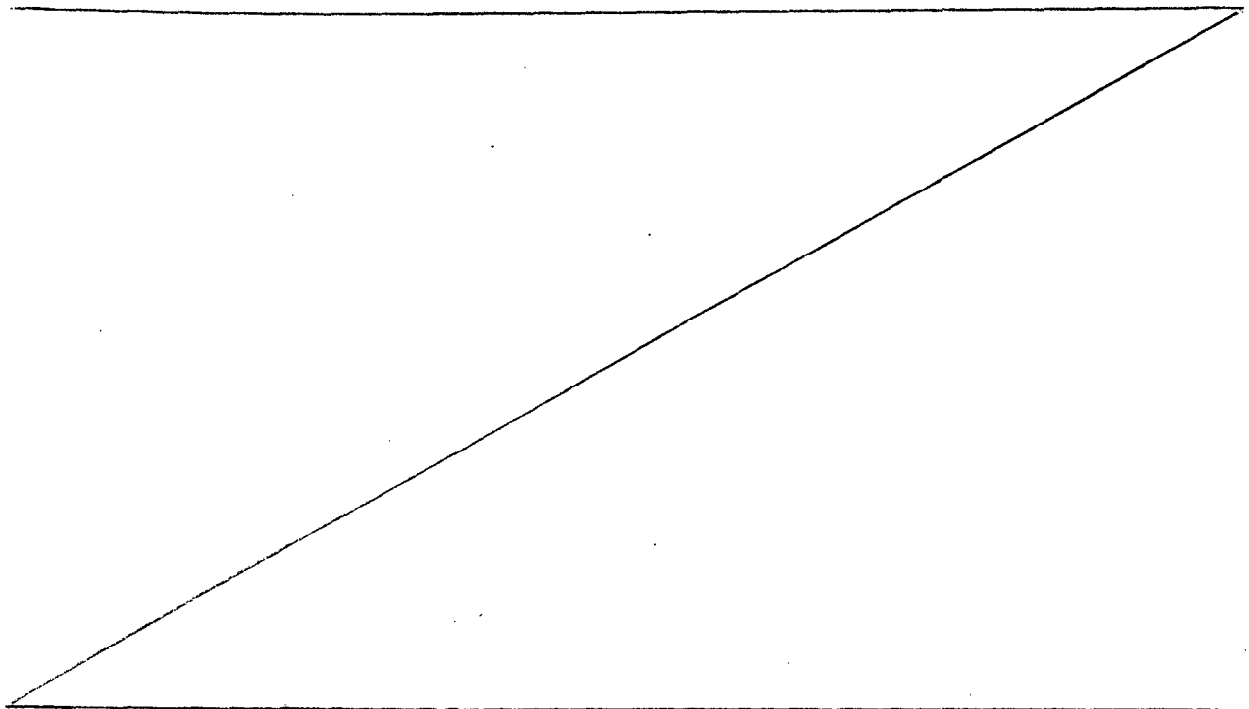

Regulation 776 provides:

"An application will be denied when ... the applicant will not be able to proceed within a reasonable time, either because of absence of a feasible plan, lack of the required financial resources, or other cause."

The applicant was given due notice of the time, place, and nature of the hearing by certified mail and said notice was received as is evidenced by signed return receipt. Accompanying

the notice was a letter from the Chief of the Board's Division of Water Rights advising the applicant that it was its responsibility to present to the Board an up-to-date construction schedule for the project covered by Application 12342 and to show that the schedule was consistent with the Board's Regulation 776 and that it had the financial ability to meet the schedule. The applicant was further advised that unless adequate information on these matters was furnished the Board, Application 12342 would be canceled. (Letter of May 24, 1974; Folder "A", Files Application 12342.)

The applicant did not appear at the hearing on June 21, 1974, having notified the Board's staff in advance that it did not intend to do so as it did not have the information necessary to satisfy the requirements of Board Regulation 776.

NOW, THEREFORE, IT IS ORDERED that Application 12342 be,
and it is hereby, canceled.

Dated: November 21, 1974
