Re: 2009 Repayment of 2008 Water Transfer Impact Account

Dear Mr. Cooke,

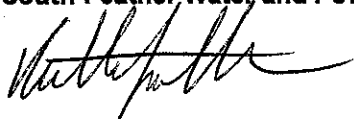

On April 20, 2009, South Feather Water and Power Agency (South Feather) submitted its plan for repayment of the 2008 Water Transfer Impact Account in compliance with Article 10 of the 2008 Transfer Agreement. The 2008 water transfer between South Feather and the State Water Contracting Agencies, and the subsequent refill of South Feather's reservoirs, resulted in an Impact Account balance of 10,000 acre-feet that needed to be released to Lake Oroville in 2009. PG&E developed a 2009 operations plan based on the April 1 snow survey data (Base Case) and also ran their model to provide an additional release at Ponderosa Dam of 10,000 AF above the base case, with a resulting end-of-year combined storage in Little Grass Valley and Sly Creek reservoirs of 50,000 AF (10 TAF less than base case). This information was transmitted to you with the April 20, 2009 letter.

The Refill Impact Account repayment began in June and the additional 10,000 AF of spill at Ponderosa Dam to Lake Oroville was completed as of November 20. On December 11, the combined storage in the reservoirs dropped below 50,000 AF, completing the repayment of the Impact Account balance.

Attached for your information are the Impact Account Repayment calculation spreadsheet and the gauge record for the Ponderosa Dam spill to Lake Oroville (USGS gauge 1396350).

If you require further information, please contact me at (530) 534-1221, ext. 202 or via email at Kzancanella@southfeather.com.

Sincerely,
South Feather Water and Power

Kathy Zancanella, Power Division Manager
