PETITION FOR CHANGE

Separate petitions are required for each water right. Mark all areas that apply to your proposed change(s). Incomplete forms may not be accepted. Location and area information must be provided on maps in accordance with established requirements. (Cal. Code Regs., tit. 23, § 715 et seq.) Provide attachments if necessary.

- Point of Diversion, Point of Rediversion, Place of Use, Purpose of Use, Distribution of Storage, Temporary Urgency, Instream Flow Dedication, Waste Water, Split, Terms or Conditions, Other: Addition of Place of Storage
Application 30118 Permit 20820 License Statement

I (we) hereby petition for change(s) noted above and described as follows:

Point of Diversion or Rediversion - Provide source name and identify points using both Public Land Survey System descriptions to 1/4-1/4 level and California Coordinate System (NAD 83).

Present: See attached map.
Proposed: See attached map.

Place of Use - Identify area using Public Land Survey System descriptions to 1/4-1/4 level; for irrigation, list number of acres irrigated.

Present: See attached map.
Proposed: See attached map.

Purpose of Use

Present:
Proposed:

Split

Provide the names, addresses, and phone numbers for all proposed water right holders.

[Empty box for split details]

In addition, provide a separate sheet with a table describing how the water right will be split between the water right holders: for each party list amount by direct diversion and/or storage, season of diversion, maximum annual amount, maximum diversion to offstream storage, point(s) of diversion, place(s) of use, and purpose(s) of use. Maps showing the point(s) of diversion and place of use for each party should be provided.

Distribution of Storage

Present: See attachment.
Proposed: See attachment.

Handwritten notes: REC'D 4-13-2015, CHK # 1073, \$1,070.50, GC; REC'D 4-13-2015, CHK # 1074, \$850.00, GC

Temporary Urgency

This temporary urgency change will be effective from [] to []

Include an attachment that describes the urgent need that is the basis of the temporary urgency change and whether the change will result in injury to any lawful user of water or have unreasonable effects on fish, wildlife or instream uses.

Instream Flow Dedication – Provide source name and identify points using both Public Land Survey System descriptions to ¼-¼ level and California Coordinate System (NAD 83).

Upstream Location: []
Downstream Location: []

List the quantities dedicated to instream flow in either: cubic feet per second or gallons per day:

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

Will the dedicated flow be diverted for consumptive use at a downstream location? Yes No
If yes, provide the source name, location coordinates, and the quantities of flow that will be diverted from the stream.
[]

Waste Water

If applicable, provide the reduction in amount of treated waste water discharged in cubic feet per second.

Will this change involve water provided by a water service contract which prohibits your exclusive right to this treated waste water? Yes No

Will any legal user of the treated waste water discharged be affected? Yes No

General Information – For all Petitions, provide the following information, if applicable to your proposed change(s).

Will any current Point of Diversion, Point of Storage, or Place of Use be abandoned? Yes No

I (we) have access to the proposed point of diversion or control the proposed place of use by virtue of:
 ownership lease verbal agreement written agreement

If by lease or agreement, state name and address of person(s) from whom access has been obtained.
[]

Give name and address of any person(s) taking water from the stream between the present point of diversion or rediversion and the proposed point of diversion or rediversion, as well as any other person(s) known to you who may be affected by the proposed change.
[]

All Right Holders Must Sign This Form: I (we) declare under penalty of perjury that this change does not involve an increase in the amount of the appropriation or the season of diversion, and that the above is true and correct to the best of my (our) knowledge and belief. Dated 4/13/2015 at Sacramento, CA.

ENVIRONMENTAL INFORMATION FOR PETITIONS

This form is required for all petitions.

Before the State Water Resources Control Board (State Water Board) can approve a petition, the State Water Board must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition for change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

Description of Proposed Changes or Work Remaining to Be Completed

DIV OF WATER RIGHTS
SACRAMENTO

The Petitioner is filing a Petition for Change to add lands to the authorized place of use named in Permit 20820 (A030118), to remove Point of Diversion and Rediversion 4 along with the associated Reservoir 4, to add proposed off-stream Reservoir 8 as a place of off-stream storage for water diverted at Point of Diversion 7, and to redistribute storage from Reservoir 4 to proposed off-stream Reservoir 8.

The description of the currently permitted place of use has been updated based on modern computer and geospatial mapping technology. The description of the map points named in the Permit have been updated using North American Datum 1983 coordinates. Other than those associated with Reservoir 4 and Reservoir 8, no changes are being requested to the map points named in the Permit. The requested place of use includes 241 acres currently authorized for domestic, frost protection, heat control and irrigation uses, plus an additional 33 acres to be added (see attached map). Hence, the total place of use authorized for domestic, frost protection, heat control and irrigation uses would equal 274 acres upon approval of the Petition for Change. Stockwatering and recreational uses will continue to be authorized at the reservoirs, as is currently permitted; however, the 274-acre area includes only those areas to be used for domestic, frost protection, heat control and irrigation uses.

The Petitioner no longer plans to develop Point of Diversion and Rediversion 4 or the previously proposed 49 acre-foot Reservoir 4, which are currently named in Permit 20820. The Petitioner is requesting that they be removed from Permit 20820 and that proposed off-stream storage Reservoir 8 be added as a place of storage for the 49 acre-feet no longer planned for storage at Reservoir 4.

The existing and proposed reservoir locations are identified on the map to accompany the Petition. The authorized amounts to be collected in the reservoirs to be named in Permit 20820 upon approval of this Petition are as follows: existing Reservoir 1 – 49 acre-feet; existing off-stream Reservoir 2 – 49 acre-feet; Reservoir 3 (proposed to be enlarged) – 49 acre-feet; Reservoir 4 will not be constructed; proposed off-stream Reservoir 5 – 49 acre-feet; proposed off-stream Reservoir 8 – 49 acre-feet.

The 274-acre requested place of use includes approximately 95 acres planned for conversion to vineyard, which encompasses the area of the proposed off-stream Reservoir 8. An Initial Study/Mitigated Negative Declaration was prepared through the County of Napa to evaluate the conversion of the undeveloped areas to vineyard (copy attached). Apart from these undeveloped areas, the requested place of use is fully developed. In addition, prior to issuance of Permit 20820, an Initial Study/Mitigated Negative Declaration was prepared through the State Water Board to evaluate the project defined in Application 30118. Thus, the project impacts have been evaluated as required in accordance with CEQA.

The Petitioner also filed a Petition for Extension of Time on December 27, 2006 requesting that the authorized time to develop the project and perfect beneficial use of water be extended to December 31, 2016. As the Petition for Extension of Time is still pending approval, the Petitioner requested by letter dated April 10, 2015 that the Petition for Extension of Time be amended to

allow the project to be fully developed and the full beneficial use of water to be made by December 31, 2026.

Re: *Amendment to Petition for Change of Permit 20820 (Application 30118) of William Hardin Trust, Napa County*

Dear Mr. Grober:

On behalf of William Hardin Trust, this is to request an amendment to the pending Petition for Change filed for Permit 20820 (Application 30118). The Petition was filed April 13, 2016 to request changes of authorized place of use and distribution of storage, as well as addition of place of storage. As the Petition is still pending, we hereby request that, along with the other changes requested in the pending Petition, the Petition be amended to add industrial use as an authorized purpose of use.

Please contact me if you have any questions regarding the foregoing.

Very truly yours,
