ENVIRONMENTAL INFORMATION FOR PETITIONS

This form is required for all petitions.

Before the State Water Resources Control Board (State Water Board) can approve a petition, the State Water Board must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition for change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

This Petition seeks a temporary reduction of a bypass and release condition contained in License 9847 held by the City of Santa Cruz ("City"). The City requests a reduction from 1 cubic feet per second to 0.2 cubic feet per second in the bypass/release of water from its Newell Creek Reservoir that is made pursuant to the term in License 9847.

Newell Creek Reservoir is the City's only source of stored water for drought protection purposes. Absent meaningful precipitation events and the relief from the bypass and release requirement from Newell Creek Reservoir, the City's water supply will approach a dangerously low level for essential health and safety needs. The project named in this Petition will not require and changes or additions to facilities. All facilities are existing. This temporary change is being sought for 180 days from the date of petition approval. The City is the lead agency responsible for compliance with the California Environmental Quality Act (CEQA) for this Petition. The City is issuing a Notice of Exemption pursuant to CEQA for this project.
