ENVIRONMENTAL INFORMATION FOR PETITIONS

STATE WATER RIGHTS
SACRAMENTO

This form is required for all petitions.

Before the State Water Resources Control Board (State Water Board) can approve a petition, the State Water Board must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition for change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

South Feather Water & Power Agency proposes transferring up to 10,000 AF to participating agencies of the State Water Contractors, Inc. Approximately 5,000 AF would be made available by reoperating Little Grass Valley Reservoir that would otherwise remain in storage in 2015. Approximately 5,000 AF would be made available by reoperating Sly Grass Reservoir that would otherwise remain in storage in 2015.

For additional detail, see Attachment 1 to Environmental Information enclosed herewith. Also, see accompanying petitions for change involving water transfer (and attachments).

Coordination with Regional Water Quality Control Board

For change petitions only, you must request consultation with the Regional Water Quality Control Board regarding the potential effects of your proposed change on water quality and other instream beneficial uses. (Cal. Code Regs., tit. 23, § 794.) In order to determine the appropriate office for consultation, see: http://www.waterboards.ca.gov/waterboards_map.shtml. Provide the date you submitted your request for consultation here, then provide the following information.

Date of Request

Per Cal.WC 1725-1732

Will your project, during construction or operation, (1) generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or (2) cause erosion, turbidity or sedimentation?

Yes No

Will a waste discharge permit be required for the project?

Yes No

If necessary, provide additional information below:

[Empty text box for additional information]

Insert the attachment number here, if applicable:

Local Permits

For temporary transfers only, you must contact the board of supervisors for the county(ies) both for where you currently store or use water and where you propose to transfer the water. (Wat. Code § 1726.) Provide the date you submitted your request for consultation here.

Date of Contact

Per Cal.WC 1725-1732

For change petitions only, you should contact your local planning or public works department and provide the information below.

Person Contacted:

Date of Contact:

Department:

Phone Number:

County Zoning Designation:

Are any county permits required for your project? If yes, indicate type below. Yes No

- Grading Permit
- Use Permit
- Watercourse
- Obstruction Permit
- Change of Zoning
- General Plan Change
- Other (explain below)

If applicable, have you obtained any of the permits listed above? If yes, provide copies. Yes No

If necessary, provide additional information below:

[Empty text box for additional information]

Insert the attachment number here, if applicable:

Federal and State Permits

Check any additional agencies that may require permits or other approvals for your project:

- Regional Water Quality Control Board Department of Fish and Game
- Dept of Water Resources, Division of Safety of Dams California Coastal Commission
- State Reclamation Board U.S. Army Corps of Engineers U.S. Forest Service
- Bureau of Land Management Federal Energy Regulatory Commission
- Natural Resources Conservation Service

Have you obtained any of the permits listed above? If yes, provide copies. Yes No

For each agency from which a permit is required, provide the following information:

| Agency | Permit Type | Person(s) Contacted | Contact Date | Phone Number |
|--------|-------------|---------------------|--------------|--------------|
| | | | | |
| | | | | |
| | | | | |

If necessary, provide additional information below:

Insert the attachment number here, if applicable:

Construction or Grading Activity

Does the project involve any construction or grading-related activity that has significantly altered or would significantly alter the bed, bank or riparian habitat of any stream or lake? Yes No

If necessary, provide additional information below:

Insert the attachment number here, if applicable:

Archeology

Has an archeological report been prepared for this project? If yes, provide a copy. Yes No

Will another public agency be preparing an archeological report? Yes No

Do you know of any archeological or historic sites in the area? If yes, explain below. Yes No

If necessary, provide additional information below:

Insert the attachment number here, if applicable:

Photographs

For all petitions other than time extensions, attach complete sets of color photographs, clearly dated and labeled, showing the vegetation that exists at the following three locations:

- Along the stream channel immediately downstream from each point of diversion
- Along the stream channel immediately upstream from each point of diversion
- At the place where water subject to this water right will be used

Maps

For all petitions other than time extensions, attach maps labeled in accordance with the regulations showing all applicable features, both present and proposed, including but not limited to: point of diversion, point of rediversion, distribution of storage reservoirs, point of discharge of treated wastewater, place of use, and location of instream flow dedication reach. (Cal. Code Regs., tit. 23, §§ 715 et seq., 794.)

Pursuant to California Code of Regulations, title 23, section 794, petitions for change submitted without maps may not be accepted.

All Water Right Holders Must Sign This Form:

I (we) hereby certify that the statements I (we) have furnished above and in the attachments are complete to the best of my (our) ability and that the facts, statements, and information presented are true and correct to the best of my (our) knowledge. Dated at .

Water Right Holder or Authorized Agent Signature

Water Right Holder or Authorized Agent Signature

NOTE:

- Petitions for Change may not be accepted unless you include proof that a copy of the petition was served on the Department of Fish and Game. (Cal. Code Regs., tit. 23, § 794.)
- Petitions for Temporary Transfer may not be accepted unless you include proof that a copy of the petition was served on the Department of Fish and Game and the board of supervisors for the county(ies) where you currently store or use water and the county(ies) where you propose to transfer the water. (Wat. Code § 1726.)

Attachment No. 1
to Environmental Information for
Petition for Change Involving Water Transfers
Permit 2492 (Application 2778)
Permit 1267 (Application 1651)
held by South Feather Water & Power Agency

DESCRIPTION OF PROPOSED CHANGES

South Feather Water & Power Agency (Agency) is petitioning to temporarily add points of diversion, a point of rediversion, and place of use to the water right identified above in order to transfer up to 10,000 AF to participating State Water Contractor (SWC) Agencies by reservoir reoperation. Enclosed along with the Environmental Information form are two petitions for temporary change under the Agency's Permit 2492 (transferring up to 5,000 AF from Sly Creek Reservoir) and Permit 1267 (transferring up to 5,000 AF from Little Grass Valley Reservoir) to implement the proposed 10,000 AF temporary transfer.

The petitions propose adding the State Water Project's (SWP) Banks Pumping Plant and Barker Slough Pumping Plant as points of diversion; and a portion of the service area of the SWP is proposed to be added as a place of use. These proposed additions would authorize the transfer of water to the participating SWC Agencies during October 2015. The proposed 2015 Water Transfer will provide the SWC Agencies with an additional water supply during the current emergency statewide drought conditions, consistent with the Governor's State of Emergency Drought Proclamation dated January 17, 2014 and subsequent proclamations and emergency orders. Neither petition proposes a change to the existing points of diversion, points of rediversion, place of use, or purposes of use.

The quantity of water proposed to be made available by reservoir reoperation would be diverted from storage at Little Grass Valley (5,000 AF, under Permit 1267) and Sly Creek Reservoirs (5,000 AF, under Permit 2492) for a cumulative delivery of up to 10,000 AF at Ponderosa Dam to Lake Oroville. The water would begin being delivered to Ponderosa Dam, the point of delivery, on or about October 5, 2015, and continue uninterrupted until approximately October 31, 2015. DWR would convey the transfer water from Lake Oroville to the new points of diversion and rediversion set forth in the Agency's petitions consistent with existing regulations and laws, including Delta biological opinions. Absent the proposed temporary transfer, the Agency would have kept the up to 10,000 AF of stored water in its reservoirs pursuant to its water rights. The proposed temporary transfer does not involve any construction or other physical changes to the Agency's facilities.

Petitions for temporary transfer of water pursuant to Water Code Section 1725 are exempt from CEQA. (Water Code § 1729.) In addition, the Governor's Proclamation of a Continued State of Emergency dated April 25, 2014 suspends environmental review required by CEQA to assist in expediting water transfers.

PHOTOGRAPHS

The present point of diversion and the proposed additional points of diversion and point of rediversion include existing facilities that are well known and documented with the Division of Water Rights (Division). In addition, the present and proposed places of use are also well known and documented with the Division. Photographs of the present places of use are attached as Exhibit A. However, photographs of the proposed points of diversion and new place of use are not included, given general notoriety.

MAPS

The present points of diversion and rediversion are shown on maps filed with the Division for Permit 2492 and Permit 1267. The proposed additional points of diversion for the SWP's Banks and Barker Slough Pumping Plants are shown on maps filed with the Division for Application 5630. The proposed additional place of use is the SWP service area, as shown on Map 1878 - 1, 2, 3 and - 4 on file with the Division under Application 5630.
