PETITION FOR CHANGE

Separate petitions are required for each water right. Mark all areas that apply to your proposed change(s). Incomplete forms may not be accepted. Location and area information must be provided on maps in accordance with established requirements. (Cal. Code Regs., tit. 23, § 715 et seq.) Provide attachments if necessary.

- Point of Diversion, Point of Rediversion, Place of Use, Purpose of Use, Distribution of Storage, Temporary Urgency, Instream Flow Dedication, Waste Water, Split, Terms or Conditions, Other
Application 1199A, Permit, License 904A, Statement

I (we) hereby petition for change(s) noted above and described as follows:

Point of Diversion or Rediversion - Provide source name and identify points using both Public Land Survey System descriptions to 1/4-1/4 level and California Coordinate System (NAD 83).

Present: See Attachment 1
Proposed: See Attachment 1

Place of Use - Identify area using Public Land Survey System descriptions to 1/4-1/4 level; for irrigation, list number of acres irrigated.

Present:
Proposed:

Purpose of Use

Present:
Proposed:

Split

Provide the names, addresses, and phone numbers for all proposed water right holders.

[Empty box for names, addresses, and phone numbers]

In addition, provide a separate sheet with a table describing how the water right will be split between the water right holders: for each party list amount by direct diversion and/or storage, season of diversion, maximum annual amount, maximum diversion to offstream storage, point(s) of diversion, place(s) of use, and purpose(s) of use. Maps showing the point(s) of diversion and place of use for each party should be provided.

Distribution of Storage

Present:
Proposed:

GC

REC'D 1-27-2016
CHECK # 22837 - \$750.00
CHECK # 22838 - \$850.00

Temporary Urgency

This temporary urgency change will be effective from to

Include an attachment that describes the urgent need that is the basis of the temporary urgency change and whether the change will result in injury to any lawful user of water or have unreasonable effects on fish, wildlife or instream uses.

Instream Flow Dedication – Provide source name and identify points using both Public Land Survey System descriptions to ¼-¼ level and California Coordinate System (NAD 83).

Upstream Location:

Downstream Location:

List the quantities dedicated to instream flow in either: cubic feet per second or gallons per day:

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

Will the dedicated flow be diverted for consumptive use at a downstream location? Yes No
If yes, provide the source name, location coordinates, and the quantities of flow that will be diverted from the stream.

Waste Water

If applicable, provide the reduction in amount of treated waste water discharged in cubic feet per second.

Will this change involve water provided by a water service contract which prohibits your exclusive right to this treated waste water? Yes No

Will any legal user of the treated waste water discharged be affected? Yes No

General Information – For all Petitions, provide the following information, if applicable to your proposed change(s).

Will any current Point of Diversion, Point of Storage, or Place of Use be abandoned? Yes No

I (we) have access to the proposed point of diversion or control the proposed place of use by virtue of:
 ownership lease verbal agreement written agreement

If by lease or agreement, state name and address of person(s) from whom access has been obtained.

Give name and address of any person(s) taking water from the stream between the present point of diversion or redirection and the proposed point of diversion or redirection, as well as any other person(s) known to you who may be affected by the proposed change.

All Right Holders Must Sign This Form: I (we) declare under penalty of perjury that this change does not involve an increase in the amount of the appropriation or the season of diversion, and that the above is true and correct to the best of my (our) knowledge and belief. Dated at

Jennifer M. Stearns WDCWA General Manager
Right Holder or Authorized Agent Signature Right Holder or Authorized Agent Signature

NOTE: All petitions must be accompanied by:
(1) the form Environmental Information for Petitions, including required attachments, available at: http://www.waterboards.ca.gov/waterrights/publications_forms/forms/docs/pet_info.pdf
(2) Division of Water Rights fee, per the Water Rights Fee Schedule, available at: http://www.waterboards.ca.gov/waterrights/water_issues/programs/fees/
(3) Department of Fish and Wildlife fee of \$850 (Pub. Resources Code, § 10005)

ENVIRONMENTAL INFORMATION FOR PETITIONS

This form is required for all petitions.

Before the State Water Resources Control Board (State Water Board) can approve a petition, the State Water Board must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition for change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

See Attachment 3.

Coordination with Regional Water Quality Control Board

For change petitions only, you must request consultation with the Regional Water Quality Control Board regarding the potential effects of your proposed change on water quality and other instream beneficial uses. (Cal. Code Regs., tit. 23, § 794.) In order to determine the appropriate office for consultation, see: http://www.waterboards.ca.gov/waterboards_map.shtml. Provide the date you submitted your request for consultation here, then provide the following information.

Date of Request

January 27, 2016

Will your project, during construction or operation, (1) generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or (2) cause erosion, turbidity or sedimentation?

Yes No

Will a waste discharge permit be required for the project?

Yes No

If necessary, provide additional information below:

Insert the attachment number here, if applicable:

Local Permits

For temporary transfers only, you must contact the board of supervisors for the county(ies) both for where you currently store or use water and where you propose to transfer the water. (Wat. Code § 1726.) Provide the date you submitted your request for consultation here.

Date of Contact

For change petitions only, you should contact your local planning or public works department and provide the information below.

Person Contacted:

Date of Contact:

Department:

Phone Number:

County Zoning Designation:

Are any county permits required for your project? If yes, indicate type below. Yes No

- Grading Permit Use Permit Watercourse Obstruction Permit
 Change of Zoning General Plan Change Other (explain below)

If applicable, have you obtained any of the permits listed above? If yes, provide copies. Yes No

If necessary, provide additional information below:

Insert the attachment number here, if applicable:

Federal and State Permits

Check any additional agencies that may require permits or other approvals for your project:

- Regional Water Quality Control Board Department of Fish and Game
- Dept of Water Resources, Division of Safety of Dams California Coastal Commission
- State Reclamation Board U.S. Army Corps of Engineers U.S. Forest Service
- Bureau of Land Management Federal Energy Regulatory Commission
- Natural Resources Conservation Service

Have you obtained any of the permits listed above? If yes, provide copies. Yes No

For each agency from which a permit is required, provide the following information:

Agency	Permit Type	Person(s) Contacted	Contact Date	Phone Number

If necessary, provide additional information below:

See Attachment 4.

Insert the attachment number here, if applicable:

Construction or Grading Activity

Does the project involve any construction or grading-related activity that has significantly altered or would significantly alter the bed, bank or riparian habitat of any stream or lake? Yes No

If necessary, provide additional information below:

Insert the attachment number here, if applicable:

Archeology

Has an archeological report been prepared for this project? If yes, provide a copy. Yes No

Will another public agency be preparing an archeological report? Yes No

Do you know of any archeological or historic sites in the area? If yes, explain below. Yes No

If necessary, provide additional information below:

Insert the attachment number here, if applicable:

Photographs

For all petitions other than time extensions, attach complete sets of color photographs, clearly dated and labeled, showing the vegetation that exists at the following three locations:

- Along the stream channel immediately downstream from each point of diversion
- Along the stream channel immediately upstream from each point of diversion
- At the place where water subject to this water right will be used

Maps

For all petitions other than time extensions, attach maps labeled in accordance with the regulations showing all applicable features, both present and proposed, including but not limited to: point of diversion, point of redirection, distribution of storage reservoirs, point of discharge of treated wastewater, place of use, and location of instream flow dedication reach. (Cal. Code Regs., tit. 23, §§ 715 et seq., 794.)

Pursuant to California Code of Regulations, title 23, section 794, petitions for change submitted without maps may not be accepted.

All Water Right Holders Must Sign This Form:

I (we) hereby certify that the statements I (we) have furnished above and in the attachments are complete to the best of my (our) ability and that the facts, statements, and information presented are true and correct to the best of my (our) knowledge. Dated at

James M. Steen, WDCWA General Manager

NOTE:

- Petitions for Change may not be accepted unless you include proof that a copy of the petition was served on the Department of Fish and Game. (Cal. Code Regs., tit. 23, § 794.)
- Petitions for Temporary Transfer may not be accepted unless you include proof that a copy of the petition was served on the Department of Fish and Game and the board of supervisors for the county(ies) where you currently store or use water and the county(ies) where you propose to transfer the water. (Wat. Code § 1726.)

Attachment 1 (Point of Diversion or Rediversion)

Present:

1. California Coordinate System of 1983, Zone 2, North 2,008,400 feet and East 6,667,100 feet, being within SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 27, T10N, R3E, MDB&M. (This is the location of the existing Reclamation District 2035 joint intake facility, which was used through 2015 for diversions under this license for irrigation purposes.)
2. California Coordinate System of 1983, Zone 2, North 2,008,200 feet and East 6,667,300 feet, being within NE $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 34, T10N, R3E, MDB&M. (This is the second authorized point of diversion in this license. It is the location of the new Woodland-Davis Clean Water Agency/Reclamation District 2035 joint intake facility. This facility is under construction but is not yet operational.)

Proposed: California Coordinate System of 1983, Zone 2, North 2,008,400 feet and East 6,667,100 feet, being within SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 27, T10N, R3E, MDB&M. (This is the location of the existing Reclamation District 2035 joint intake facility, which is proposed for use during the term of this temporary urgency change petition. This petition requests a temporary amendment of the fourth term on page 3 of this license, so that this point of diversion may be used during the term of the petition.)

Attachment 2 (Temporary Urgency)

The Woodland-Davis Clean Water Agency (“WDCWA”), originally planned to complete the Davis-Woodland Water Supply Project (“DWWSP”) and to begin diverting water from the Sacramento River for this project after completion of the new joint intake facility that is being constructed by Reclamation District 2035 (“RD 2035”). However, the DWWSP now is scheduled to be completed, and to be ready for testing, on June 1, 2016, while the joint intake facility may not be completed until as late as October 28, 2016.

For this reason, WDCWA needs to temporarily pump water from the RD 2035 Main Canal into the DWWSP raw-water pipeline and to convey that water to the DWWSP Regional Water Treatment Facility, so that testing of that facility may proceed on schedule and so that WDCWA then can start operating the DWWSP to supply treated water to the Cities of Woodland and Davis and the University of California, Davis.

If the test and startup of the DWWSP were to be delayed, then the following adverse consequences would occur: Many of the citizens of Woodland and Davis, who funded the DWWSP through water rates, would receive drinking water from wells that would not meet the current hexavalent chromium drinking water standard. Also both cities have hard water that corrodes appliances and plumbing, leading to expensive maintenance or replacements. Some citizens install water softeners to address these hard water concerns. These water softeners cost money to operate and maintain and the byproducts of the water softeners add more salt to the cities’ wastewater, which is already high in salinity. The high mineral content of the well water also causes customer dissatisfaction in the taste of the water. For citizens who have seen a dramatic increase in their water rates, a dramatic improvement in taste of the water is expected. The delay would also impose additional financial hardship on WDCWA to pay the Design-Build Operator for continued mobilization of staff and temporary construction facilities while the delay is in effect.

WDCWA must make a large financial investment for the rental of the temporary piping and pumping equipment on or before April 1, 2016. WDCWA therefore is requesting the SWRCB to approve the TUCP on or before April 1, 2016, before WDCWA makes this large financial investment.

There are no other diversions between the present point of diversion and the proposed point of diversion, so the temporary change will not result in the injury to any other legal user of water.

For the reasons discussed in the attached DWWSP EIR Addendum No. 8, which WDCWA approved on November 24, 2015, the requested change will not have any unreasonable effects on fish, wildlife or instream uses. On November 16, 2015, Dennis Diemer, WDCWA’s General Manager, Lindsay Smith of West Yost Associates, Erich Fischer of Environmental Science Associates, Mary Lisa Lynch of the California Department of Fish and Wildlife (CDFW)), and Michelle Coldiron of CDFW met to discuss this proposed temporary urgency change. Following that meeting, CDFW’s representatives advised WDCWA’s representatives that CDFW will not oppose this petition if the pumping that will be authorized by the order granting the petition begins on or after June 1, 2016.

Attachment 3 (Description of Proposed Changes)

If this petition is granted, then WDCWA will install a temporary pump station at the WDCWA/RD 2035 joint intake site to divert water from the RD 2035 Main Canal and deliver this water to the DWWSP raw-water pipeline. These activities are described in detail, with illustrative figures, in the attached DWWSP EIR Addendum No. 8, which WDCWA approved on November 24, 2015.

Attachment 4 (Federal and State Permits)

WDCWA has obtained all necessary permits for the DWWSP and no additional permits are required for the activities associated with this change petition.

December 15, 2015 - View from diversion point
(existing RD2035 pumpstation), looking
downstream

November 17, 2015 - View from diversion point (existing RD2035 pumpstation), looking upstream.
