NOTICE OF PETITION FOR TEMPORARY CHANGE INVOLVING THE TRANSFER OF UP TO 850 ACRE-FEET WATER FROM EL DORADO IRRIGATION DISTRICT TO VARIOUS CENTRAL VALLEY PROJECT AND STATE WATER PROJECT CONTRACTOR AGENCIES UNDER LICENSE 2184 (APPLICATION 1692)

On March 27, 2020, El Dorado Irrigation District (EID) filed a petition for temporary change to transfer up to 850 acre-feet (af) of water pursuant to Water Code section 1725 et seq., under water right License 2184 (Application 1692). EID proposes to transfer the water from June through November 2020 to various Central Valley Project and State Water Project Contractor Agencies by re-operating Weber Reservoir to release water that would have remained in storage in 2020. The proposed transfer would include the following temporary changes to EID's License 2184: (1) add the State Water Project's Harvey O. Banks Pumping Plant, the Jones Pumping Plant, and San Luis Reservoir as points of rediversion, and (2) add a portion of the service areas of the Central Valley Project and State Water Project as additional places of use.

While not part of this Water Code 1725 petition, the EID transfer project also includes an additional amount through re-operation of EID's Silver Lake and Caples Lake under pre-1914 water rights, for a total transfer amount, inclusive of the Weber Reservoir re-operation, of 8,000 af of transfer water.

Pursuant to California Water Code section 1726(f), any interested person may file a comment regarding the petition. **Comments filed in response to this notice should be submitted to the persons listed below and must be received by 4:30 p.m. on May 6, 2020.**
