Hi Tina,

That is by design. You cannot delete or replace any files at this point as the deadline for submittals has passed. That was only allowed prior to the deadline. And will theoretically be available again once the folders are hidden for submittal during part 2. This function is described in the ruling letters discussing the FTP site and it's functions.

Michael

Thank you Michael, I've saved the login info so that I don't have to bother you again.

Also, I want to let you know the FTP site won't let us overwrite the files (replace the existing with the updated files). We had that problem before and had it today again.

Have a nice evening!

Respectfully

Tina German

Just as an FYI in the password I was reading it as a lower case 'l' but its actually an uppercase "l" as in Ice.
