Subject: DWR-Reclamation Water Rights Change Petition

Dear Deputy Director Evoy,

On August 25, 2015 the California Department of Water Resources and U.S. Bureau of Reclamation jointly submitted a petition to the State Water Resources Control Board to add points of diversion and rediversion to existing water rights permits. The petitioners have determined that the joint petition contains non-substantive errors or omissions and are therefore preparing an errata and additional clarifications for submission no later than September 18, 2015. In order to best facilitate a full evaluation of the petition content, the State Water Board staff may wish to delay its review of the petition for completeness until receipt of this additional information.

If this raises any questions or concerns, please feel free to contact me or Ken Bogdan [(916) 651-2988].

All the best,

Tripp Mizell
