1. REISSUANCE AND PURPOSE

This Instruction:

1.1. Reissues reference (a) to implement policy, assign responsibilities, and prescribe procedures under reference (b) for the verification, validation, and accreditation (VV&A) of DoD models and simulations and their associated data.

1.2. Authorizes publication of DoD 5000.61-G, "DoD Verification, Validation, and Accreditation Guide," consistent with DoD 5025.1-M (reference (c)).

2. APPLICABILITY AND SCOPE

This Instruction applies to:

2.1. The Office of the Secretary of Defense (OSD), the Military Departments, the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities in the Department of Defense (hereafter referred to collectively as "the DoD Components").

2.2. All models and simulations developed, used, or managed by the DoD Components after the effective date of this Instruction.

2.3. Models and simulations used in support of Operational Test and Evaluation (OT&E), all of which are subject to guidance from the Director, OT&E, per DoD Directive 5141.2 (reference (d)).

3. DEFINITIONS

Terms used in this Instruction are defined in enclosure 2.

4. POLICY

It is DoD policy that:

4.1. Models and simulations used to support major DoD decision-making organizations and processes (such as the Defense Planning and Resources Board; the Joint Requirements Oversight Council; and the DoD Planning, Programming, and Budgeting System (references (e) through (g)) shall be accredited for that specific purpose by the DoD Component M&S Application Sponsor.

4.2. Each DoD Component shall be the final authority for validating representations of its own forces and capabilities in common-, general-, or Joint-use M&S applications and shall be responsive to the other DoD Components to ensure its forces and capabilities are appropriately represented.

4.3. Models and simulations used to support joint training and joint exercises shall be accredited for that specific purpose by the DoD Component M&S Application Sponsor.

4.4. Accreditation requirements of models and simulations used to support all other applications shall be determined at the DoD Component level.

4.5. The DoD Components shall establish VV&A policies and procedures for models and simulations they develop, use, or manage.

4.6. Each DoD Component shall comply with the responsibilities identified in section 5. and procedures identified in section 6.

5. RESPONSIBILITIES

5.1. The Under Secretary of Defense for Acquisition, Technology, and Logistics shall:

5.1.1. In coordination with the DoD Components, develop policies, plans, procedures, and DoD issuances for the effective implementation and management of VV&A of DoD M&S.

5.1.2. Through the Director, Defense Research and Engineering, as Chair of the DoD Executive Council for Modeling and Simulation (EXCIMS):

5.1.2.1. Encourage improved communication and coordination among and between organizations and agencies conducting DoD VV&A activities.

5.1.2.2. Identify and support investments in VV&A enabling technologies that have high-value return in fulfilling DoD requirements, or that fill gaps in DoD VV&A capabilities.

5.1.2.3. Promote joint and cooperative research, development, acquisition, and application of VV&A technologies and processes among the DoD Components.

5.1.2.4. Establish standards and guidelines to promote DoD VV&A procedural commonality and foster M&S interoperability.

5.1.2.5. Arbitrate differences in representation of forces and capabilities among the DoD Components to ensure standardization in common, general, or Joint-use M&S applications and federations of models and simulations.

5.1.3. Designate the Defense Modeling and Simulation Office as the "DoD VV&A focal point" and the central source of DoD VV&A information.

5.1.4. Comply with responsibilities specified in paragraph 5.3.

5.2. The Assistant Secretary of Defense for Command, Control, Communications, and Intelligence shall:

5.2.1. Through the Director, Defense Intelligence Agency:

5.2.1.1. As the DoD Modeling and Simulation Executive Agent (MSEA) for M&S representations of foreign forces, for other DoD Components' representations of foreign forces, and their systems shall:

5.2.1.1.1. Serve as the final validation authority (reference (b));

5.2.1.1.2. Resolve validation issues; and

5.2.1.1.3. Be responsive to that DoD Component to ensure that foreign forces and capabilities are appropriately represented (reference (b)).

5.2.1.2. As the DoD MSEA for M&S representations of U.S. National and Joint Intelligence processes, for other DoD Components' representations of U.S. National and Joint Intelligence processes shall:

5.2.1.2.1. Serve as the final validation authority (reference (b));

5.2.1.2.2. Resolve validation issues; and

5.2.1.2.3. Be responsive to that DoD Component to ensure that intelligence processes and capabilities are appropriately represented (reference (b)).

5.2.2. Comply with responsibilities specified in paragraph 5.3.

5.3. The Principal Staff Assistants (PSAs) and the Heads of the DoD Components shall:

5.3.1. Plan and provide resources, as needed, to carry out functional VV&A responsibilities according to DoD Component priorities.

5.3.2. Approve DoD VV&A policies and procedures, and DoD Publications.

5.3.3. Ensure non-DoD M&S applications they sponsor comply with established DoD VV&A policies and procedures.

5.3.4. Establish VV&A policies, procedures, and guidelines for M&S applications and their associated data. DoD Component VV&A policies and procedures shall address, as a minimum:

5.3.4.1. Use of existing or new models and simulations, including those that are federates or federations.

5.3.4.2. DoD Component-managed models and simulations used for joint-, general-, or common-use applications.

5.3.4.3. Models and simulations used by the DoD Components that are developed, used, or managed by non-DoD organizations, (i.e., contractors (including federally funded Research and Development Centers), industry, academia, and other Federal or non-Federal government organizations).

5.3.4.4. Designation, authorities, and responsibilities of:

5.3.4.4.1. M&S Proponent(s).

5.3.4.4.2. M&S Application Sponsor(s).

5.3.4.4.3. Verification, Validation, and Accreditation Agent(s).

5.3.4.4.4. DoD Component M&S VV&A focal point(s).

5.3.4.5. VV&A documentation and accessibility requirements, as outlined in enclosure 3.

5.3.4.6. Application-specific data verification and validation activities that are included as an integral part of M&S V&V, accreditation, and documentation activities.

5.3.5. Establish procedures holding the following accountable and responsible for the activities indicated:

5.3.5.1. M&S Proponents:

5.3.5.1.1. Verification and validation of their assigned M&S, as well as the documentation of those activities.

5.3.5.1.2. Coordinating validation activities with the DoD Component who serves as the final authority for the validations of representations within its purview.

5.3.5.1.3. Funding the V&V over the life cycle (e.g., development, upgrades, and maintenance) of their models and simulations.

5.3.5.1.4. For distributed modeling and simulation or federations of models or simulations (hereafter collectively referred to as "federations"):

5.3.5.1.4.1. The M&S Proponent roles and responsibilities pertaining to V&V for the overall federation shall be fulfilled by the DoD Component organization responsible for managing a federation and its associated data.

5.3.5.1.4.2. The responsibility for V&V of a federate and its associated data shall be retained by the M&S Proponent for each federate within a federation.

5.3.5.2. M&S Application Sponsors:

5.3.5.2.1. As the Accreditation Authority, accrediting M&S used for their specific application(s), as well as the documentation of those activities.

5.3.5.2.2. Funding the VV&A activities that support their application-specific accreditation decisions.

5.3.5.2.3. Consulting with the appropriate MSEA during VV&A plan development if the models and simulations will involve representations within the domain of the MSEA.

5.3.5.2.4. Accrediting the federation and its associated data for the specific purpose shall be the responsibility of the DoD Component serving as the M&S Application Sponsor of a federation.

5.3.5.3. Individual Data Producers:

5.3.5.3.1. The quality of their data or data products provided for M&S use.

5.3.5.3.2. Supplying data quality information, including data verification and validation reports for data or data products provided for M&S use.

5.3.6. Designate a "Component VV&A focal point" to interface with the DoD VV&A focal point for their VV&A policies, activities, and documentation.

5.3.7. Document and make accessible to the other DoD Components the results of their VV&A activities, including, but not limited to, information and data on their DoD Component VV&A policies and procedures, V&V results, and accreditation decisions.

5.3.8. When designated as a DoD MSEA:

5.3.8.1. Upon request, provide domain information and expertise in support of VV&A activities.

5.3.8.2. Make certain that data quality information is available and accessible to support the individual DoD Component's VV&A activities.

5.4. The Chairman of the Joint Chiefs of Staff shall:

5.4.1. Establish VV&A policies, procedures, and guidelines to satisfy the needs of joint activities reporting to the Chairman of the Joint Chiefs of Staff.

5.4.2. In coordination with the other DoD Components, establish procedures for the validation and accreditation of joint M&S and federations of models and simulations used for joint applications.

6. PROCEDURES

6.1. Verification and validation (V&V) shall be:

6.1.1. Incorporated into the development and life-cycle management processes of all M&S.

6.1.2. Required for all models and simulations in current use in the Department of Defense.

6.1.3. Commensurate with the relative importance, risk, and life-cycle management phase of the model, simulation, or federation to which they are applied.

6.2. The V&V of a federation shall include a determination that:

6.2.1. Federation elements can physically connect and exchange data.

6.2.2. Federates, when joined together, provide adequate, accurate, and consistent simulated representations that adhere to the principles of fair fight and address the mission objectives.

6.3. Data V&V is an integral part of the M&S VV&A process and shall:

6.3.1. Be addressed, to include programming of V&V resources, at the earliest stages of a new model or simulation development or the upgrade of an existing model or simulation.

6.3.2. Be documented as part of the VV&A documentation requirements, as specified in enclosure 3.

6.4. VV&A information shall be documented and, as a minimum, shall include the information specified in enclosure 3.

7. EFFECTIVE DATE

This Instruction is effective immediately.

E. C. Aldridge, Jr.
Under Secretary of Defense
(Acquisition, Technology and Logistics)

E2. ENCLOSURE 2

DEFINITIONS

E2.1. GENERAL

Definitions used in this Instruction are divided into two sections: those terms established or continued in this DoD Instruction and terms adopted from other DoD issuances.

E2.2. TERMS ESTABLISHED OR CONTINUED

E2.2.1. Acceptability Criteria (Accreditation Criteria). A set of standards that a particular model, simulation, or federation must meet to be accredited for a specific purpose.

E2.2.2. Accreditation. The official certification that a model, simulation, or federation of models and simulations and its associated data are acceptable for use for a specific purpose (reference (b)).

E2.2.3. Accreditation Agent. The organization designated to conduct an accreditation assessment for an M&S application.

E2.2.4. Accreditation Authority. The organization or individual responsible to approve the use of a model, simulation, or federation of simulations for a particular application. (See Modeling and Simulation (M&S) Application Sponsor, definition E2.2.29.)

E2.2.5. Common-Use M&S. M&S applications, services, or materials provided by a DoD Component to two or more DoD Components (reference (b)).

E2.2.6. Data Verification and Validation (V&V). The process of verifying the internal consistency and correctness of data and validating that it represents real-world entities appropriate for its intended purpose or an expected range of purposes. The process has two perspectives: the producer and the user process.

E2.2.7. Distributed M&S. A set of models and/or simulations operating in a common synthetic environment over a network with two or more nodes.

E2.2.8. DoD Component Verification, Validation, Accreditation (VV&A) Focal Point. An organization, designated by each DoD Component, as its authoritative, single point of contact for information and data on, as a minimum, that DoD Component's VV&A policies and procedures, V&V results, and accreditation documentation. The DoD Component VV&A focal point shall be the designated point of contact to work with the DoD VV&A focal point on VV&A issues.

E2.2.9. DoD Executive Council for M&S (EXCIMS). An organization established by the Under Secretary of Defense for Acquisition, Technology, and Logistics (USD(AT&L)) and responsible for providing advice and assistance on DoD M&S issues. The EXCIMS includes the DoD M&S Executive Council, the DoD M&S Working Group, and the supporting Sub-Working Groups and Task Forces that support them. Membership is determined by the USD(AT&L) (reference (b)).

E2.2.10. DoD Issuance. DoD Directives, Instructions, Publications, and their Changes (reference (c)).

E2.2.11. DoD M&S Executive Agent (MSEA). A DoD Component to whom the USD(AT&L) has assigned responsibility and delegated authority for the development and maintenance of a specific area of M&S application, including relevant standards and databases, used by or common to many models and simulations (reference (b)).

E2.2.12. DoD M&S Investment Plan. A DoD plan, published under the authority of the USD(AT&L) and with the coordination of the DoD Components, that establishes short-term (present to 6 years) and long-term (beyond 6 years) programs and funding for joint and common use M&S to achieve the specified goals and objectives outlined in the DoD M&S Master Plan (reference (b)).

E2.2.13. DoD M&S Master Plan. A DoD plan, published under the authority of the USD(AT&L) and with the coordination of the DoD Components, that establishes short-term (present to 6 years) and long-term (beyond 6 years) DoD goals and objectives for the application of M&S for joint and common use within the Department of Defense. It shall also include an assessment of current M&S capabilities, a status report on M&S efforts under development, and a road map that delineates the management, investment, and technical strategies required to achieve DoD M&S objectives (reference (b)).

E2.2.14. DoD M&S Resource Repository (MSRR)

E2.2.14.1. A geographically distributed and networked series of automated information systems that contain unclassified, classified, or both classified and unclassified data and information on M&S that is accessible by DoD-authorized users.

E2.2.14.2. A single DoD node, source, or site that contains M&S data and/or information that may or may not be part of the DoD MSRR network.

E2.2.15. DoD Publications. A DoD issuance that implements or supplements a DoD Directive and/or Instruction by providing uniform procedures for management or operational systems and disseminating administrative information. DoD Publications include: Catalogs, Directories, Guides, Handbooks, Indexes, Inventories, Lists, Manuals, Modules, Pamphlets, Plans, Regulations, and Standards that implement or supplement DoD Directives or Instructions (reference (c)).

E2.2.16. DoD VV&A Focal Point (VFP). A DoD organization designated as the authoritative, single point of contact for DoD and non-DoD activities on the data and information on DoD VV&A policies, procedures and practices, V&V results, and accreditation documentation.

E2.2.17. Domain. The physical or abstract space in which the entities and processes operate. The domain can be land, sea, air, space, undersea, a combination of any of the above, or an abstract domain, such as an n-dimensional mathematics space, or economic or psychological domains (reference (h)).

E2.2.18. Federate. An individual model or simulation that is part of a federation of models and simulations. Federates may be distributed.

E2.2.19. Federation of Models and Simulations. A system of interacting models and/or simulations, with supporting infrastructure, based on a common understanding of the objects portrayed in the system. (See Federate, definition E2.2.18.)

E2.2.20. Functional Activity. The primary subdivision of a functional area, made up of a collection of processes that can be managed together using policies and procedures not specifically applicable to other functional activities within the functional area.

E2.2.21. Functional Area. A functional area (e.g., personnel) is comprised of one or more functional activities (e.g., recruiting), each of which consists of one or more functional processes (e.g., interviews).

E2.2.22. Functional Process. A well-defined (or definable) set of logically related tasks and decisions within a functional activity that use resources to produce products or services.

E2.2.23. General-use M&S. Specific representations of the physical environment or environmental effects used by, or common to, many models and simulations; e.g., terrain, atmospheric, or hydrographic effects (reference (b)).

E2.2.24. Joint M&S. Abstract representations of joint and Service forces, capabilities, equipment, materiel, and services used in the joint environment by two, or more, Military Services (reference (b)).

E2.2.25. Military Departments. The Department of the Army, the Department of the Navy, and the Department of the Air Force, including their National Guard and Reserve components.

E2.2.26. Military Services. The Army, the Navy, the Air Force, and the Marine Corps.

E2.2.27. Model. A physical, mathematical, or otherwise logical representation of a system, entity, phenomenon, or process (reference (b)).

E2.2.28. Modeling and Simulation (M&S). The use of models and simulations, either statically or over time, to develop data as a basis for making managerial or technical decisions. This includes, but is not limited to, emulators, prototypes, simulators, and stimulators.

E2.2.29. M&S Application Sponsor. The organization that accredits and uses the results or products from a specific application of a model or simulation.

E2.2.30. M&S Interoperability. The ability of a model or simulation to provide services to, and accept services from, other models and simulations, and to use the services so exchanged to enable these M&S to operate effectively together (reference (a)).

E2.2.31. M&S Proponent. The DoD Component organization that has primary responsibility to initiate development and life-cycle management of the reference version of one or more models and/or simulations.

E2.2.32. M&S VV&A Repository. A central library, catalog, registry, database, listing, or World Wide Web Internet site for VV&A data and information that may be part of DoD M&S Resource Repository.

E2.2.33. Office of the Secretary of Defense (OSD). Includes the immediate Offices of the Secretary and Deputy Secretary of Defense, the Under Secretaries of Defense, the Director of Defense Research and Engineering (DDR&E), the Assistant Secretaries of Defense (ASDs), the Director of Operational Test and Evaluation (DOT&E), the General Counsel of the Department of Defense (GC, DoD), the Inspector General of the Department of Defense (IG, DoD), the Assistants to the Secretary of Defense (ATSDs), the OSD Directors, or equivalents, who report directly to the Secretary or the Deputy Secretary of Defense, and such other staff offices as the Secretary of Defense establishes to assist in carrying out assigned responsibilities (reference (i)).

E2.2.34. Office of the Secretary of Defense (OSD) Components. The Undersecretaries of Defense and the Assistant Secretary of Defense (Command, Control, Communications, and Intelligence) and those Principal Staff Assistants and organizations over which they individually exercise authority, direction, control, or staff supervision as outlined in DoD Directives 5141.2, 5111.1, 5118.3, 5124.2, 5134.1, and 5137.1 (references (d) and (k) through (n)).

E2.2.35. Operational Test and Evaluation (OT&E). The field test, under realistic operational conditions, of any item (or key component) of weapons, equipment, or munitions for the purpose of determining the operational effectiveness and operational suitability of the weapons, equipment, or munitions for operational use, including combat, by typical military users, and the evaluation of the results of such test (reference (d)).

E2.2.36. Principal Staff Assistants. The Under Secretaries of Defense; the DDR&E, the ASDs; the Inspector General of the Department of Defense; the GC, DoD; the ATSDs; and the OSD Directors, or equivalents, who report directly to the Secretary or Deputy Secretary of Defense (reference (b)).

E2.2.37. Simulation. A method for implementing a model over time. Also, a technique for testing, analysis, or training in which real-world systems are used, or where real-world and conceptual systems are reproduced by a model (reference (b)).

E2.2.38. Simulation Conceptual Model. The developer's description of what the model or simulation will represent, the assumptions limiting those representations, and other capabilities needed to satisfy the user's requirements.

E2.2.39. Validation. The process of determining the degree to which a model and its associated data are an accurate representation of the real world from the perspective of the intended uses of the model (reference (b)).

E2.2.40. Validation Agent. The person or organization designated to perform validation of a model, simulation, or federation of models and/or simulations and the associated data.

E2.2.41. Verification. The process of determining that a model implementation and its associated data accurately represents the developer's conceptual description and specifications (reference (b)).

E2.2.42. Verification Agent. The person or organization designated to perform verification of a model, simulation, or federation of models and/or simulations and the associated data.

E2.3. TERMS THIS INSTRUCTION ADOPTS

E2.3.1. From DoD 8320.1-M (reference (o)):

E2.3.1.1. Data. A representation of facts, concepts, or instructions in a formalized manner suitable for communication, interpretation, or processing by humans or by automatic means.

E2.3.2. Data Quality. The correctness, timeliness, accuracy, completeness, relevance, and accessibility that make data appropriate for use.

E2.3.2. From Chairman of the Joint Chiefs of Staff Instruction 3500.02C (reference (p)):

E2.3.2.1. Exercise. A military maneuver or simulated wartime operation involving planning, preparation, and execution. It is carried out for the purpose of training and evaluation.

E2.3.2.2. Joint Exercise. A joint military maneuver, simulated wartime operation, or other Chairman of the Joint Chiefs of Staff/Combatant

Commander-designated event involving planning, preparation, execution, and evaluation. A joint exercise involves forces of two or more Military Departments interacting with a Combatant Commander or subordinate joint force commander; involves joint forces and/or joint staffs; and is conducted using joint doctrine or joint tactics, techniques, and procedures.

E2.3.2.3. Joint Training. Military training based on joint doctrine or joint tactics, techniques, and procedures to prepare joint forces and/or joint staffs to respond to strategic and operational requirements deemed necessary by the Combatant Commanders to execute their assigned missions. Joint training involves forces of two or more Military Departments.

E2.3.2.4. Multinational Exercises. Exercises that train and evaluate United States and other national forces or staffs to respond to requirements established by multinational force commanders to accomplish their assigned missions.

E2.3.2.5. Service Training. Military training based on Service policy and doctrine to prepare individuals and interoperable units. Service training includes basic, technical, operational, and interoperability training in response to operational requirements deemed necessary by the Combatant Commands to execute assigned missions.

E3. ENCLOSURE 3

VERIFICATION, VALIDATION, AND ACCREDITATION (VV&A) DOCUMENTATION FORMAT AND ACCESSIBILITY REQUIREMENTS

E3.1. DOCUMENTATION REQUIREMENTS

As a minimum, document verification and validation information supporting accreditation decisions as well as accreditation results as follows:

E3.1.1. For verification:

E3.1.1.1. Identify the verification agent(s) involved in the verification.

E3.1.1.2. Describe the model or simulation version or release and identify the developing organization.

E3.1.1.3. List or reference the M&S requirements.

E3.1.1.4. List and/or describe the verification methodologies and activities.

E3.1.1.5. Summarize the verification results.

E3.1.1.6. Identify any M&S limitations.

E3.1.2. For validation:

E3.1.2.1. Identify the validation agent(s) performing the validation.

E3.1.2.2. Identify the model, simulation, or M&S federation version and/or release and its developing organization.

E3.1.2.3. Describe the Simulation Conceptual Model.

E3.1.2.4. List, describe, and/or identify the validation methodologies and activities used, including the methods for validation of data.

E3.1.2.5. Summarize validation results.

E3.1.2.6. Specify any identified M&S limitations.

E3.1.3. For accreditation: The M&S Application Sponsor shall document accreditation results, to include, at a minimum, the following:

E3.1.3.1. Identify the M&S Application Sponsor.

E3.1.3.2. Identify the accreditation agent organization, if different from the M&S Application Sponsor.

E3.1.3.3. Identify the model, simulation, or federation version and/or release and the developing organization.

E3.1.3.4. Identify the M&S Application Sponsor's intended purpose for the model, simulation, and/or federation to be accredited.

E3.1.3.5. List or describe the requirements to be addressed by the model, simulation, or M&S federation.

E3.1.3.6. Identify, assess, and/or catalog those aspects of the model, simulation, and/or federation that are essential and pertinent to an accreditation decision, as appropriate. For example:

E3.1.3.6.1. Assumptions.

E3.1.3.6.2. Scenarios.

E3.1.3.6.3. Representations of concepts, processes.

E3.1.3.6.4. Environmental representations (e.g., natural and/or human environment: climate, weather, terrain, geographic, political, economic, etc.).

E3.1.3.6.5. Representations of missions, organizations, systems (weapon systems, combat support systems, combat service support systems) and their capabilities.

E3.1.3.6.6. Doctrine, tactics, behaviors, and performance algorithms used by each represented force (blue, red, white).

E3.1.3.6.7. Other information and data, as needed.

E3.1.3.7. Describe the accreditation methodology, including V&V activities, that support accreditation; data verification and validation; risk assessments; and, acceptability criteria.

E3.1.3.8. Assess or evaluate the capabilities and limitations of the particular data, specific model, simulation, or federation as they affect the appropriateness for the intended purposes.

E3.1.3.9. State the M&S Application Sponsor's accreditation decision regarding the acceptability of the model, simulation, or federation for the intended purpose.

E3.2. M&S VV&A DOCUMENTATION ACCESSIBILITY REQUIREMENTS

DoD M&S VV&A information and data should be readily accessible and available to DoD users. To meet this requirement, the DoD Components, to the extent that priorities and resources permit, shall:

E3.2.1. Establish a DoD Component M&S VV&A repository that identifies existing M&S VV&A documentation and ensures the timely addition of current, new, and future VV&A documentation.

E3.2.2. Establish procedures to allow DoD users to identify and access M&S VV&A documentation information and data.
