

STATEMENT OF QUALIFICATIONS

James R. White

Education: B.S. Wildlife and Fisheries Biology, University of California, Davis 1974.
M.S. Aquatic Ecology, University of California, Davis, 1977

Employment: California Department of Fish and Game Associate Fishery Biologist, Bay-Delta Project. December 1985 to present. Implement Department's Selenium Verification Study, an assessment of selenium and other trace element contamination of fish and wildlife statewide.

Fishery Biologist, DFG Region 4. October 1984 to December 1985. Plan and implement a project to restore the chinook salmon run and other fishery resources in the lower Stanislaus River; conduct escapement surveys and spawning habitat assessment and devise restoration plan, define distribution patterns, development rates and the timing and magnitude of downstream migration.

Fishery Biologist, Bay-Delta Project. February 1978 to October 1984. Participated in field work, data analysis and report preparation for a project investigating striped bass, sturgeon, and resident fish species in the Sacramento-San Joaquin Estuary.
