Meeting ID: 262 494 209 05

Passcode: **Bm3Gp9H2**

BACKGROUND AND PURPOSE

The Recharge Permitting team seeks to engage potential diverters through this virtual public workshop. For parties interested in acquiring a permit, the workshop will focus on steps applicants can take to timely submit a successful permit application. Information will focus on the 5-year temporary permit submittal, including an overview of temporary application filing fees. For parties interested in the non-permit pathway, the workshop will include an overview of Water Code 1242.1 (flood recharge diversions), including recent changes based on Executive Order N-16-25.
