

Basis of State Plane Coordinates and Vertical Elevations:
 NAD83 Horizontal US Survey Feet Coordinates, CCS83 Zone 2, (epoch date: 2007.00), established by GPS-static observations based on NGS Control Stations AM 1 208 (PID AC9242) and ROCKLIN (PID 354086). Site control and tie-ins performed by total station survey methods.
 NAVD83 Vertical US Survey Feet Elevations established by GPS-Static observations based on US Army Corps of Engineers Monument AM-2766, elev = 492.09', and NGS Benchmark AM 1 208 (PID AC9242), elev = 491.77'.
 PT ID NORTH EAST ELEV
 AM 1 208 2035393.40 6792931.88 491.77
 ROCKLIN 2044044.68 6792766.69 492.09
 AM1-2766

Restrictions:
 This plot has been prepared at a scale of 1"=10' (1:120), with field procedures and accuracies conforming with such scale. Use of this plot at any other scale may not meet national map accuracy standards. Therefore, this firm accepts no liability and/or responsibility as to the accuracy of this plot, or any part thereof, should it be enlarged.
 Although this plot has been formatted in AutoCAD (R12), it is for the convenience of the design professional. This firm's "Work Product" is a plot prepared at a scale of 1"=10' on paper media and is not a valid survey without the surveyor's original signature and stamped seal.
 For value received, this plot has been prepared for the exclusive use of HIDDEN LAKES ESTATES HOA and/or their legal representative. Use or reliance on this plot by any party other than those named above is forbidden without permission in writing from James L. White, whose seal and signature are shown hereon.

Notes:
 This survey was performed by total-station survey methods to provide topographic contours of the existing grades on Oct. 18 - Nov. 01, 2007. All distances and elevations are in feet and decimals thereof.
 Boundary shown per Book L of Maps of Page 18, Placer County Records. The boundary depicted is approximate, and indicates Record distances, and is NOT the result of a comprehensive boundary survey. The boundary lines are related to reflect CCS83 Zn 2 State Plane Coordinates.
 Elevation Datum for this survey is based on NAVD83.
 Contour Interval is 1 foot, dashed contours are approximate.
 Contours within the Pond impoundment area, below the water surface, are approximate, as features are not visible.
 Property boundary and line re-entrantment, not in scope of services. Easements, recorded or otherwise, not in scope of services. Eaves, downspouts, irrigation, etc., not in scope of services.
 Underground utilities shown hereon were located by above-ground indications or USA markings. Surveyor makes no guarantee as to the positional location of underground utilities.
 Only trees having a diameter of 6" or larger delineated, save others employed for elevation purposes. Tree diameters shown are in inches at breast height. Drip-lines are approximate.
