Subject: "1/19/2010 BOARD MEETING (Sonoma County Vineyard Water Use)"

State Water Resources Board:

I believe that regulations on water use at this point would be a hasty and unjustified response to issues that need more data to determine direct cause.

I am asking that as an alternative, you take time to accumulate more data on water use for frost protection, stream flow in critical streams and best management practices to conserve water.

After this data is collected, The Board, Dept of Fish and Game, NMFS and growers can take productive steps that will benefit both fish and farmers alike.

Sincerely,

Michael J Vellutini
