SOURCE: Lagunitas Creek

COUNTY: Marin

---

WHEREAS:

North Marin Water District filed a Minor Change Request with the State Water Resources Control Board (State Water Board), Division of Water Rights (Division) on December 30, 2020.

North Marin Water District requested a Minor Change to modify License 4324B by adding a point of diversion known as the Gallagher Well No. 2. The Minor Change was approved and issued on June 1, 2021.

On June 29, 2022, North Marin Water District requested Gallagher Well No. 2 to be added to related Permits 19724 and 19725 (Applications 25062 and 25079). During the processing of this request, North Marin Water District provided an updated map. The Minor Change approved and issued on June 1, 2021, included an error in the Public Land Survey System (PLSS) descriptions of Gallagher Well No. 1 and Gallagher Well No. 2. Both wells are located within a projected section, the boundaries of which are more accurately mapped using modern Graphical Information System PLSS data.

The locations of wells have been corrected to:

Gallagher Well No. 1: By California Coordinate System of 1983, Zone 3, North 2,223,665 feet, and East 5,904,382 feet, being within the Northeast

quarter of the Northwest quarter of projected Section 30, Township 3 North, Range 8 West, Mount Diablo Base and Meridian (MDB&M).

Gallagher Well No. 2, by California Coordinate System of 1983, Zone 3, North 2,224,112 feet, and East 5,904,361 feet, being within the Northeast quarter of the Northwest quarter of projected Section 30, Township 3 North, Range 8 West, MDB&M.

as shown on map filed with the State Water Board dated March 2026.

Water Code Section 1124 states the State Water Board at any time, may make a correction of any obvious typographical or clerical error or oversight. The Division has determined that the mapping errors in License 4324B may be corrected under Water Code Section 1124. The correction to the points of diversion will not operate to the injury of any legal user of water and will not effectively initiate a new right.

Pursuant to Resolution No. 2012-0029, the State Water Board has redelegated authority to the Assistant Deputy Directors; the Section Managers in the Permitting and Enforcement Branch and the Bay-Delta and Hearings Branch; all Seniors in the Permitting Section; Petition, Licensing, and Registration Section; and Bay-Delta Sections; and the Senior of the Hearings Unit to authorize the correction of the description in an application, permit, or license of the point of diversion, place of use, purpose of use, or name of source if (a) there is no physical change in the project facilities already constructed or the current use of water, or no change in the intent of the applicant or permittee regarding the proposed location of the project facilities or use of water, and (b) no one could have been misled by the original description.

NOW, THEREFORE, IT IS ORDERED THAT THE STATE WATER BOARD HEREBY APPROVE THE CORRECTIONS FOR AMENDED LICENSE 4324B. LICENSE 4324B, WHICH INCORPORATES THE ABOVE CORRECTIONS, IS AMENDED AS FOLLOWS:

**License 4324B:**
